Product Description

Customized Processing Of Solid Colored Resin Glass Gradient Luminous Ceiling

1.Product Introduction

JAFFA is a brand renowned for its exceptional interior design solutions. One of its remarkable offerings is the customized processing of solid colored resin glass gradient luminous ceilings. These ceilings are a true work of art, combining durability and beauty in a unique way. The solid colored resin glass is carefully selected for its high quality and long-lasting performance. The gradient effect is visually captivating, adding depth and dimension to any space. JAFFA offers extensive customization options, working closely with clients to design ceilings that meet their specific needs and preferences. Whether it's a particular color scheme, size, or shape, JAFFA can create a one-of-a-kind ceiling that perfectly complements the overall aesthetic of the space. The luminous feature of these ceilings is an added charm. The soft glow creates a warm and inviting atmosphere, enhancing the comfort and enjoyment of the space. The lighting can be adjusted to suit different moods and occasions, providing versatility to the design. JAFFA's commitment to quality is evident in every aspect of these customized ceilings. From the materials used to the craftsmanship and attention to detail, JAFFA strives to create products that exceed expectations. Transform your space with a JAFFA customized solid colored resin glass gradient luminous ceiling and experience the beauty and elegance of a unique design that will leave a lasting impression.

2.Resin Glass

Glass resin is an ethanol solution of organosilicon resin prepolymers

Transparent and lightweight in appearance, with extremely high plasticity, easy to bend, and easy to assemble

a, physical property

Hard and transparent, with good insulation performance, and advantages such as friction resistance, heat resistance, aging resistance, radiation resistance, low temperature non brittleness, and strong light transmittance.

b, stress quantity over quality

The weight is half that of ordinary glass, making transportation and construction more convenient.

c, High safety performance

Durable, with strong impact resistance, not easily broken, and a long service life.

d, Health and environmental protection

0 formaldehyde, non-toxic, environmentally friendly, is a new material favored by designers.

e, Easy to process

Can be cut arbitrarily, easy to assemble, and can be assembled according to the design effect.

f. High plasticity

Flexible and flexible in shape, it can be used for surface modeling in space.

g. High transparency

Crystal clear and lustrous, it can not only increase the lighting area, but also serve as a decorative effect, combining functionality and artistry.

f. Customizable according to design requirements

Due to the high aesthetic value of resin glass, it is suitable for various styles and can also be customized according to design requirements,
Create more possibilities for space.

3.Daily maintenance and upkeep

(1) When cleaning, only 1% soapy water is needed.

(2) Soak a soft cotton cloth with soapy water and do not use hard objects or dry wipes.

(3) Do not use cleaning cloths, steel wire balls, glass scrapers, window cleaners, mops, and other tools for cleaning.

(4) Do not use kitchen and bathroom cleaning agents such as dishwashing detergent.

(5) The towel washing water during the cleaning process should not contain sediment.
