

Customizable Heat / UV Resistant Resin Laminated Glass With Nonbreakable Strength

Our Product Introduction

more products please visit us on custom-acrylicproducts.com

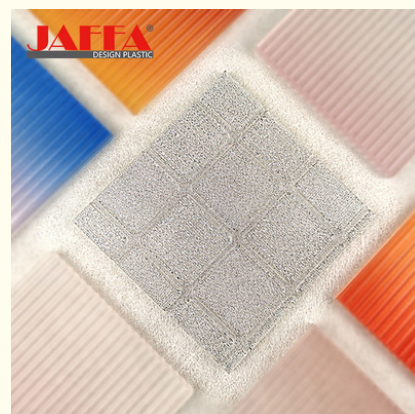

Basic Information

- Minimum Order Quantity: 5set
- Price: Negotiable
- Packaging Details: Wooden box packaging, cardboard box packaging
- Delivery Time: 7-10 work days
- Payment Terms: D/P, L/C, T/T
- Supply Ability: 500sets/Year

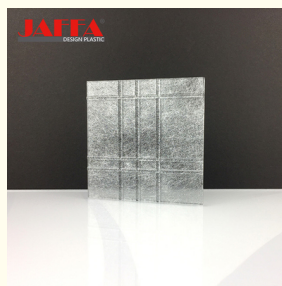

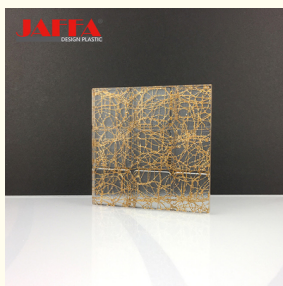

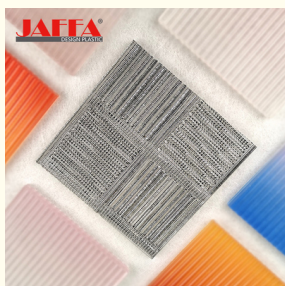

Product Specification

- Heat Resistance: High
- UV Resistance: High
- Customization: Available
- Impact Resistance: Nonbreakable
- Color: Custom Colors
- Sound Insulation: Good
- Material: Custom Resin Glass
- Application: Resin Laminated Glass Partition Wall
- Highlight: Customizable epoxy glass laminate, UV Resistant epoxy glass laminate, Personalized Colors soundproof glass panels

Product Description

Product Description:

Whether it's the size, shape, color, or pattern, our customization service ensures that the glass perfectly fits your vision and the specific needs of your project.

The heat and UV resistance properties of this resin laminated glass are truly outstanding. It effectively shields against the damaging effects of heat and harmful UV rays, providing long-lasting protection and maintaining the integrity of the glass.

Notably, the nonbreakable strength of this glass adds an extra layer of safety and durability. You can have peace of mind knowing that it will withstand various challenges and remain intact.

For example, in a commercial setting, the customizable feature allows for seamless integration into the architectural design, while the heat and UV resistance ensures a comfortable and protected environment for occupants. In a residential application, it can be customized to enhance the aesthetic appeal of a home while providing reliable protection from the elements.

Advantage:

Customization options: Allows for tailored solutions to meet specific design, size, and functionality requirements.

Resistance to various elements: Such as heat, UV rays, impact, and chemicals, ensuring durability and long service life.

Lamination enhances strength: Provides increased structural integrity and safety.

Excellent optical clarity: Offers clear and unobstructed views.

Lightweight: Easier to handle and install compared to traditional glass.

Sound insulation properties: Reduces noise transmission, creating a quieter environment.

Energy efficiency: Can contribute to better insulation, reducing heating and cooling costs.

Aesthetic appeal: Available in various colors and finishes to match different decor styles.

Low maintenance: Easy to clean and maintain its appearance over time.

Versatile applications: Suitable for a wide range of industries and uses, including construction, automotive, and interior design.

Sample fee

Prepaid sample fee

The proofing fee will be refunded for bulk orders, and will not be charged if you are not satisfied.

Support and Services:

Our Resin Laminated Glass product comes with comprehensive technical support and services to ensure optimal performance and longevity. Our technical support team is available to answer any questions you may have regarding the product's installation, maintenance, and repair. Additionally, we offer training programs for your staff to ensure proper handling and maintenance of the product.

We also provide a range of services to support the use of our Resin Laminated Glass product. This includes custom design and engineering services to ensure the product meets your specific requirements and specifications. We also offer testing and certification services to ensure that the product meets all necessary safety and performance standards. Our goal is to provide our customers with the highest level of support and services to ensure the successful use of our Resin Laminated Glass product.

Packing and Shipping:

Product Packaging:

The Resin Laminated Glass product will be securely packaged in a cardboard box.

The glass will be placed between foam padding to prevent any damage during shipping.

The box will be sealed with tape and labeled with product information.

Shipping:

The Resin Laminated Glass product will be shipped via a reputable courier service.

The shipping cost will be calculated based on the weight and destination of the package.

Tracking information will be provided to the customer once the package is shipped.

Delivery times may vary depending on the destination.

FAQ:

A: Resin Laminated Glass is a type of safety glass that is made by sandwiching a layer of resin between two or more sheets of glass. This process creates a strong, durable, and shatter-resistant material that is ideal for use in a variety of applications.

Q: What are the benefits of Resin Laminated Glass?

A: Resin Laminated Glass offers many benefits, including increased strength and durability, improved sound insulation, and increased protection against UV rays. It is also shatter-resistant, which makes it a safe choice for use in areas where safety is a concern.

Q: What are some common applications for Resin Laminated Glass?

A: Resin Laminated Glass is commonly used in applications where safety and durability are important, such as in automotive windshields, building facades, and skylights. It can also be used in decorative applications, such as for furniture and art installations.

Q: How is Resin Laminated Glass installed?

A: Resin Laminated Glass is typically installed using a specialized adhesive that is applied between the layers of glass. This adhesive creates a strong, permanent bond that holds the glass together. The installation process will vary depending on the specific application and the size of the glass being used.

Q: What are the different types of Resin Laminated Glass available?

A: Resin Laminated Glass is available in a variety of types, including clear, tinted, and reflective glass. It can also be fabricated with different types of interlayers, such as colored or frosted glass, to create unique visual effects.

JAFFA

THE REASON FOR OUR CHOICE

ABOUT US

We are committed to providing customers with high-quality acrylic, plexiglass and resin plate products to meet the needs of various industries. Whether it's commercial display, interior decoration, advertising logo or home design, we can make it according to customer's requirements.

We have advanced production equipment and technical team, which can provide a variety of different processing technologies, including cutting, grinding, bending and bonding.

Ensure the accuracy and quality of products.

We also pay attention to innovation and research and development, and constantly introduce new products and designs to meet the needs and trends of the market.

In terms of installation, we have an experienced installation team, which can quickly and accurately complete the installation of products to ensure customer satisfaction and use effect.

Whether it is a business customer or an individual customer, we are committed to providing you with professional, efficient and high-quality services.

No matter what kind of products you need to customize.

We can make it according to your needs and requirements.

Ensure the quality and effect of products.

RETURN AND EXCHANGE INSTRUCTIONS

PARTICULARITY

(Customized products, subject to the effect)

After cutting, it will affect the secondary sales.

If there is no quality problem, we don't support returning goods.

Thank you for your cooperation.

**If you need to return the goods, you will be charged 80%,
and the return postage will be borne by the buyer himself.**

I wish you a happy shopping!

If you have any questions.

Please contact our after-sales customer service.

We will give a reasonable treatment plan in time ~

About delivery

After the customer places an order,
the goods will be delivered within 1-3 working days under normal circumstances.

If the quantity is large or the process is complex,
the production cycle will be extended. If you have requirements for delivery time,
you can contact and negotiate.

About chromatic aberration

The product pictures are all real photos, but due to shooting technology,
light, display parameters and other factors.

The color of the received object will be different from the photo.

Please take the object as the standard.

About price

Because there are many specifications of raw materials,
please contact customer service for quotation for other specifications.

(The link price is for the convenience of customers to place an order, not the actual price of the product)
