

## Transparency Custom Resin Laminated Shatterproof Glass With Excellent UV Resistance

Our Product Introduction

more products please visit us on custom-acrylicproducts.com

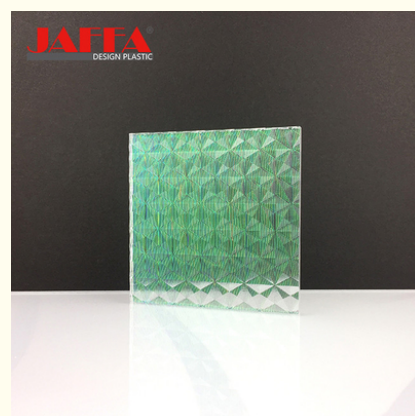

### Basic Information

- Minimum Order Quantity: 5set
- Price: Negotiable
- Packaging Details: Wooden box packaging, cardboard box packaging
- Delivery Time: 7-10 work days
- Payment Terms: D/P, L/C, T/T
- Supply Ability: 500sets/Year

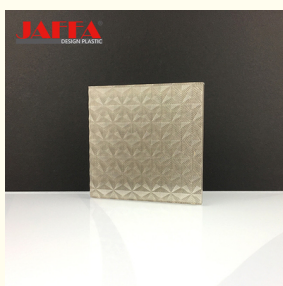

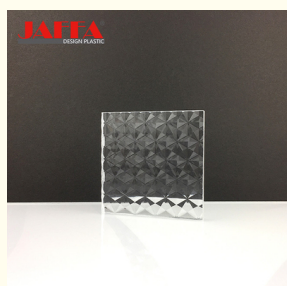

### Product Specification

- Transparency: High
- UV Resistance: High
- Color: Custom Colors
- Safety: Shatterproof
- Durability: High
- Impact Resistance: Nonbreakable
- Sound Insulation: Good
- Material: Shatterproof Resin Glass
- Highlight: **high Transparency Resin Laminated Glass, Resin Laminated Glass, Laminated Shatterproof Glass UV Resistance**

## Product Description

### Product Description:

The shatterproof feature of this JAFFA's Transparency Custom Resin Laminated Shatterproof Glass is truly outstanding. It is engineered to withstand significant impacts and forces without shattering into dangerous fragments. This makes it an ideal choice for various applications where safety is of paramount importance.

For example, in commercial buildings, it can be used for large floor-to-ceiling windows or as partitions, providing a secure environment for occupants. In residential settings, it can be installed in patio doors or balustrades, giving homeowners peace of mind knowing that the glass will not break easily in the event of an accident or strong winds.

Even in high-risk areas such as airports, train stations, or shopping malls, where there is a high volume of people traffic, this shatterproof glass ensures the safety of the public.

The transparency of the glass allows for unobstructed views and natural light to pass through, creating a bright and open atmosphere. The customizability of the resin laminated design enables it to meet the specific aesthetic and functional requirements of different projects.

### Technical Parameters:

Product	Resin Laminated Glass
Heat Resistance	High
Color	Custom Colors
Resin Type	High Strength
Impact Resistance	Nonbreakable
Safety	Shatterproof
Durability	High
Application	Partition Wall / Modern Decoration
Customization	Available
Sound Insulation	Good
Material	Shatterproof Resin Glass

### Support and Services:

Our technical support and services include:

Product installation guidance

Troubleshooting support

Regular training sessions

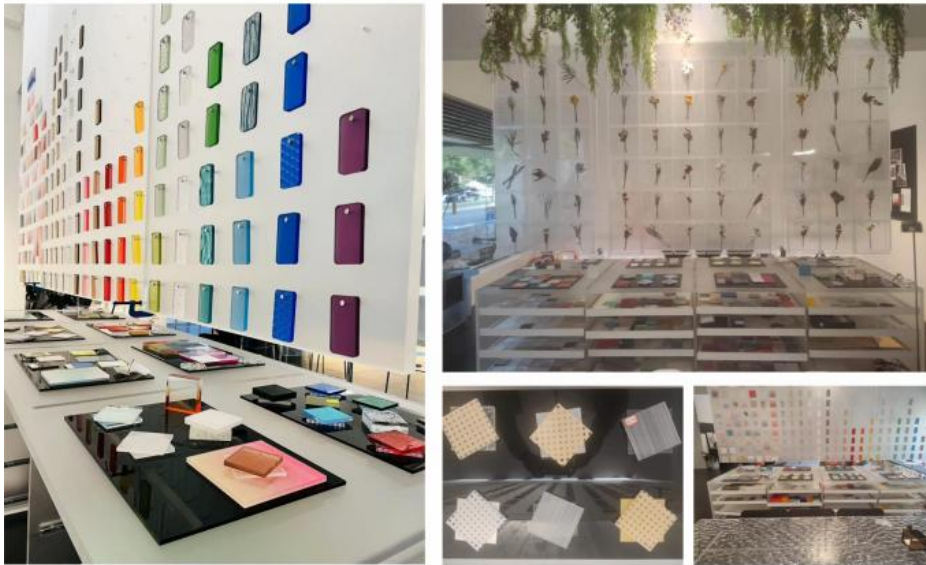

Maintenance and repair services

Access to online resources and documentation

## Sample fee

Prepaid sample fee

The proofing fee will be refunded for bulk orders, and will not be charged if you are not satisfied.

### Packing and Shipping:

#### Product Packaging:

The Resin Laminated Glass product will be packaged in a sturdy cardboard box.

The glass will be wrapped in protective bubble wrap to prevent any damage during shipping.

The box will be labeled with the product name and any special handling instructions.

#### Shipping:

The Resin Laminated Glass product will be shipped via a reputable courier service.

Shipping costs will be calculated based on the destination and weight of the package.

Customers will be provided with a tracking number to track their package during transit.

### FAQ:

A: Resin Laminated Glass is a type of safety glass that consists of two or more layers of glass with a layer of resin in between. The layers are bonded together under heat and pressure, creating a strong and durable material.

Q: What are the benefits of Resin Laminated Glass?

A: Resin Laminated Glass provides a high level of safety and security, as it is less likely to break or shatter than regular glass. It also offers superior sound insulation and UV protection.

Q: Where can Resin Laminated Glass be used?

A: Resin Laminated Glass is suitable for a wide range of applications, including windows, doors, skylights, balustrades, and partitions. It can also be used in automotive and marine industries.

Q: Is Resin Laminated Glass easy to maintain?

A: Yes, Resin Laminated Glass is easy to maintain. It can be cleaned with a mild soap and water solution, and a soft cloth or sponge. Abrasive cleaners and rough materials should be avoided to prevent scratching of the surface.

Q: What sizes and thicknesses are available for Resin Laminated Glass?

A: Resin Laminated Glass is available in a range of sizes and thicknesses, depending on the application. The thickness can range from 6mm to 50mm, and the maximum size can be up to 3000mm x 8000mm.
