Product Description

Product Description:

JAFFA's UV Resistance Good Sound Insulation Customizable Tinted Resin Laminated Glass is a cutting-edge product that stands out in the market.

This resin laminated glass is specifically engineered to offer exceptional UV resistance. It effectively blocks harmful ultraviolet rays, protecting both people and objects from their damaging effects. Whether it's installed in residential buildings, commercial spaces, or automotive applications, the UV resistance feature ensures that interiors remain safe and undamaged over time.

For instance, in a home, it helps prevent fading of furniture, carpets, and curtains, maintaining their original colors and quality. In office buildings, it safeguards sensitive equipment and documents from UV degradation.

The good sound insulation property of this glass adds an extra layer of comfort and privacy. It reduces noise transmission, creating a quieter and more peaceful environment.

Moreover, the customizable tint option allows you to tailor the glass to your specific aesthetic and functional needs. You can choose the shade that suits your style and light control requirements.

Technical Parameters:

Technical Parameter	Description
Product Name	Resin Laminated Glass
Installation	Easy
Material	Resin Glass
Transparency	High
Impact Resistance	Nonbreakable
Application	Partition Wall / Modern Decoration
Heat Resistance	High
Safety	Shatterproof
UV Resistance	High
Color	Custom Colors
Durability	High

Applications:

Interior Design

Windows and skylights: Effectively block UV rays from entering the room, protect furniture and interiors from fading, and provide good daylighting at the same time.

Partitions and screens: While dividing the space, maintain light transparency and block UV rays.

Wall decoration: Add a unique visual effect to the interior and prevent the wall from being damaged by UV rays.

Commercial Spaces

Store windows: Display goods while blocking the impact of UV rays on the goods to maintain their color and quality.

Hotel lobbies and restaurants: Create a comfortable environment and protect guests and interior decorations.

Offices: Reduce damage to office equipment and documents from UV rays.

Outdoor Architecture

Canopies for balconies and terraces: Provide shade and block UV rays, increasing the comfort of outdoor spaces.

Building façades: Serve as decorative elements while preventing erosion of the building structure by UV rays.

Art and Exhibitions

Display cases: Protect exhibits from UV damage and keep them in good condition.

Art installations: Serve as creative elements while having UV-resistant functions.

Sports Stadiums

Sunshade facilities in the spectator stands: Block UV rays and provide a comfortable viewing experience for spectators.

Support and Services:

Our Resin Laminated Glass product is backed by our expert technical support and services team. We provide comprehensive assistance for any product-related queries or issues that may arise. Our team is available to assist with product installation, usage, maintenance, and troubleshooting. Additionally, we offer training programs to ensure that our customers have the knowledge and skills necessary to properly handle our Resin Laminated Glass product. We are committed to delivering exceptional customer service and ensuring that our customers are satisfied with their purchase.

Packing and Shipping:

Product Packaging:

The Resin Laminated Glass is carefully packed in a sturdy cardboard box.

The box is sealed with tape to ensure the product remains secure during transit.

Each piece of glass is wrapped in bubble wrap to provide extra protection.

The box is labeled with the product name and any necessary handling instructions.

Shipping:

Our company uses reliable shipping services to ensure your order arrives in a timely manner.

The shipping cost is calculated based on the weight and destination of the order.

Customers can choose from a variety of shipping options, including expedited shipping for urgent orders.

We provide tracking information so you can monitor the status of your shipment.

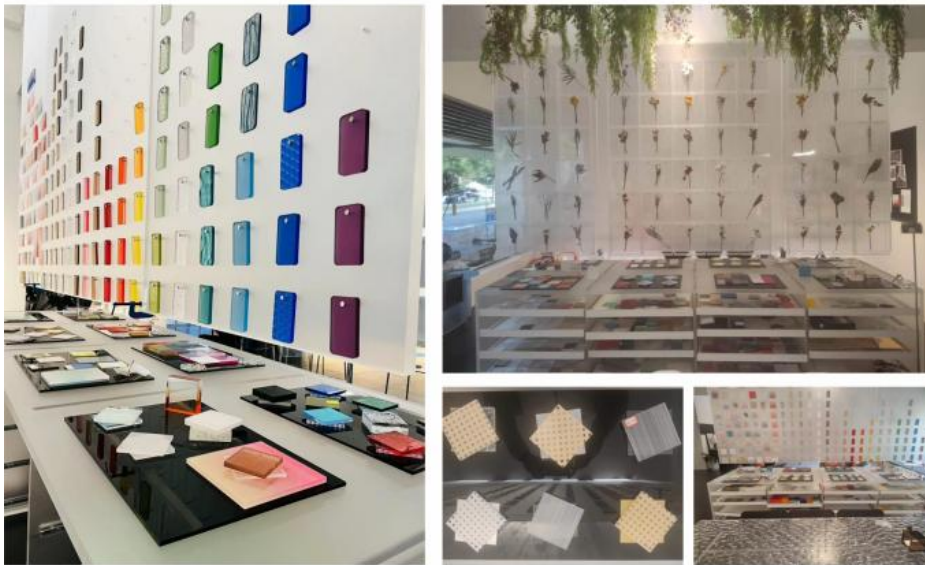

If you have any questions or concerns about the shipping process, please don't hesitate to contact us.

Sample fee

Prepaid sample fee

The proofing fee will be refunded for bulk orders, and will not be charged if you are not satisfied.

FAQ:

A: Resin Laminated Glass is a type of safety glass that is made by bonding two or more layers of glass together with a layer of resin. This creates a strong, durable, and shatter-resistant material that is ideal for use in a variety of applications.

Q: What are the benefits of using Resin Laminated Glass?

A: Resin Laminated Glass offers a number of benefits over other types of glass. It is more shatter-resistant, making it safer for use in high-traffic areas or in applications where glass breakage could cause injury. It is also more durable, able to withstand impacts and extreme temperatures better than other types of glass.

Q: What applications is Resin Laminated Glass suitable for?

A: Resin Laminated Glass is ideal for use in a wide range of applications, including but not limited to: skylights, balconies, glass floors, glass railings, hurricane-resistant windows, and blast-resistant windows.

Q: How is Resin Laminated Glass installed?

A: Resin Laminated Glass can be installed using a variety of methods, depending on the application. It can be installed using traditional glazing techniques, or it can be installed using structural silicone adhesives. Our team can provide assistance with installation methods and requirements.

Q: How can I order Resin Laminated Glass?

A: To order Resin Laminated Glass, simply contact our sales team using the contact information on our website. We will be happy to provide you with a quote and answer any questions you may have.

JAFFA

THE REASON FOR OUR CHOICE

ABOUT US

We are committed to providing customers with high-quality acrylic, plexiglass and resin plate products to meet the needs of various industries. Whether it's commercial display, interior decoration, advertising logo or home design, we can make it according to customer's requirements.

We also pay attention to innovation and research and development, and constantly introduce new products and designs to meet the needs and trends of the market.

In terms of installation, we have an experienced installation team, which can quickly and accurately complete the installation of products to ensure customer satisfaction and use effect.

Whether it is a business customer or an individual customer, we are committed to providing you with professional, efficient and high-quality services.

No matter what kind of products you need to customize.

We can make it according to your needs and requirements.

Ensure the quality and effect of products.

JAFFA

RETURN AND EXCHANGE INSTRUCTIONS

PARTICULARITY

(Customized products, subject to the effect)

After cutting, it will affect the secondary sales.

If there is no quality problem, we don't support returning goods.

Thank you for your cooperation.

**If you need to return the goods, you will be charged 80%,
and the return postage will be borne by the buyer himself.**

I wish you a happy shopping!

If you have any questions.

Please contact our after-sales customer service.

We will give a reasonable treatment plan in time ~

About delivery

After the customer places an order,
the goods will be delivered within 1-3 working days under normal circumstances.

If the quantity is large or the process is complex,
the production cycle will be extended. If you have requirements for delivery time,
you can contact and negotiate.

About chromatic aberration

The product pictures are all real photos, but due to shooting technology,
light, display parameters and other factors.

The color of the received object will be different from the photo.

Please take the object as the standard.

About price

Because there are many specifications of raw materials,
please contact customer service for quotation for other specifications.

(The link price is for the convenience of customers to place an order, not the actual price of the product)
