## Product Description

Custom - made colored acrylic partitions

### JAFFA DESIGN PLASTIC Custom Colored Acrylic Partition: Redefining Spatial Flow

Crafted by **JAFFA DESIGN PLASTIC**, a leader in high-end design, this custom colored acrylic partition is the ideal choice for premium commercial and office environments. We specialize in luxury design, combining the transparent elegance of acrylic with precision thermoforming to create a space divider that transcends function, transforming boundaries into dynamic, artistic focal points.

#### Core Advantages

##### 2.High-End Customization, Exclusive Expression

JAFFA DESIGN PLASTIC offers a fully bespoke service, where every detail—from color gradients and panel curvature to overall dimensions and form—can be precisely tailored to your space's style and brand identity. Whether it's a flowing blue gradient or another custom color and shape, the partition becomes a three-dimensional extension of your brand's narrative.

##### 3.Balance of Transparency & Privacy

The semi-translucent acrylic maintains spatial openness while effectively defining functional zones, avoiding the closed-off feel of traditional partitions. The wavy, layered design allows light and sight to flow naturally, creating an open yet structured atmosphere.

##### 4.Durability & Ease of Maintenance

Made from high-quality cast acrylic, it is 20 times more impact-resistant than glass, with a smooth, non-porous surface that is easy to clean with a soft cloth. Its lightweight nature eliminates the need for complex load-bearing structures, reducing construction costs and timelines for long-term use in premium spaces.

##### 5.Master of Light & Atmosphere

Integrated LED lighting is evenly diffused through the semi-translucent acrylic, enhancing the gradient colors with depth and dimension. As the viewer's perspective changes, the layered panels produce shifting light and shadow effects, turning the partition into a constantly evolving visual experience.
