### Description

- **Curved Marble Vein Translucent Design:** Adopts large curved acrylic panels with natural marble vein texture replication. The hazy semi-transparent effect divides fitting/display areas while softly diffusing light, creating a romantic and high-end atmosphere for the bridal shop.
- **High-Clarity Weather-Resistant Acrylic Material:** Made of imported high-toughness translucent acrylic panels, impact-resistant, scratch-resistant and anti-yellowing, maintaining texture transparency and texture for long-term indoor use, complying with overseas high-end commercial space safety standards.
- **Modular Curved Splicing Structure:** The partition consists of multiple curved acrylic panels + metal top/bottom frames in sections, which can be combined into cylindrical/wave shapes, convenient for transportation and on-site assembly, adapting to different spatial layouts of bridal shops.
- **Bottom LED Ambient Lighting:** Reserved installation position for bottom LED light strips. Warm white light diffuses upward, making the marble vein texture more layered, enhancing the atmosphere and high-level sense of wedding dress display.
- **Safe & Stable Structure:** The acrylic edges are rounded and polished, the top and bottom frames are reinforced with metal, and the bottom is equipped with a weighted base/anti-slip pad, which are stable and not easy to tip over, complying with overseas commercial space safety codes.
- **Multi-Scene Adaptability:** Can be used for bridal shop fitting room partition, dress display area division, window background decoration, luxury bridal boutique art installation and other scenarios.
- **Eco-Friendly & Safe Craftsmanship:** Adopts laser cutting + heat bending + fine polishing + texture transfer printing, burr-free and odorless. The acrylic material complies with EU ROHS environmental standards, and the LED light source is flicker-free and radiation-free.

Sample fee  
Prepaid sample fee

The proofing fee will be refunded for bulk orders, and will not be charged if you are not satisfied.

Parameter Item (English)	Parameter Value (Customizable)
Material	Imported Translucent Acrylic + Stainless Steel Top/Bottom Frames + Weighted Metal Base + LED Soft Light Strips

Packaging Customization	Custom Brand Logo / Custom Export Wooden Crate

### PARTICULARITY

(Customized products, subject to the effect)  
 After cutting, it will affect the secondary sales.  
 If there is no quality problem, we don't support returning goods.  
 Thank you for your cooperation.

**If you need to return the goods, you will be charged 80%,  
 and the return postage will be borne by the buyer himself.**

I wish you a happy shopping!  
 If you have any questions.

Please contact our after-sales customer service.  
**We will give a reasonable treatment plan in time ~**

#### **About delivery**

After the customer places an order,  
the goods will be delivered within 1-3 working days under normal circumstances.

If the quantity is large or the process is complex,  
the production cycle will be extended. If you have requirements for delivery time,  
you can contact and negotiate.

#### **About chromatic aberration**

The product pictures are all real photos, but due to shooting technology,  
light, display parameters and other factors.

The color of the received object will be different from the photo.

Please take the object as the standard.

#### **About price**

Because there are many specifications of raw materials,  
please contact customer service for quotation for other specifications.

(The link price is for the convenience of customers to place an order, not the actual price of the product)

## FAQ

### **1. What scenarios is this bridal shop partition suitable for?**

Answer: It is suitable for bridal shop fitting room partition, dress display area division, window background decoration, luxury bridal boutique art installation and other scenarios, being a core decorative item to enhance the romantic and high-end atmosphere of the store.

### **2. How to balance the privacy and light transmittance of semi-transparent acrylic?**

Answer: The marble vein semi-transparent effect effectively blocks fitting area privacy (details are not visible beyond 1.5 meters), while the light transmittance is 60%–70%, allowing soft light diffusion without affecting the lighting needs of wedding dress display.

### **3. How durable is the acrylic partition? Does it meet overseas commercial safety standards?**

Answer: Made of imported high-toughness acrylic, it is impact-resistant, scratch-resistant and anti-yellowing, not easily deformed for long-term use. It can be customized to comply with overseas commercial space safety codes such as ASTM/EN, suitable for overseas high-end bridal boutique project needs.

### **4. Does it support light embedding or texture customization?**

Answer: Yes. LED strips can be embedded at the bottom, or different textures such as marble vein/wooden texture/ice crack can be customized, making the partition have both ambient lighting and artistic decoration functions, perfectly matching the romantic style of the bridal shop.

### **5. Is installation and transportation complicated?**

Answer: The modular curved sectional design can be disassembled for transportation, reducing logistics costs. It is spliced and installed on-site by professionals, supporting two fixing methods: floor/suspension, adapting to different spatial structures of bridal shops with convenient construction.

A dark grey rectangular graphic with the word "JAFFA" in large, white, bold, sans-serif font at the top. Below it, the phrase "THE REASON FOR OUR CHOICE" is written in a smaller, white, sans-serif font. The text is centered and framed by two white L-shaped brackets on either side.
