Product Description

Custom - made Acrylic Crystal Brick Outdoor Partition

Custom Acrylic Crystal Brick Stringed Outdoor Partition: Creating Luxury Check-In Spots and Illuminating Spatial Aesthetics

Crafted by **JAFFA DESIGN PLASTIC**, this custom acrylic crystal brick stringed outdoor partition is the ideal choice for driving foot traffic and elevating aesthetic appeal in commercial spaces. We expertly string together crystal-clear acrylic bricks into a flowing visual curtain, which refracts brilliant light under natural illumination. It not only provides a transparent spatial division but also serves as a natural check-in landmark with built-in viral potential, infusing every space with luxury and interactivity.

Core Advantages

- 1. Luxury Check-In Spots with Viral Potential** The acrylic crystal bricks exhibit a brilliant, crystal-like luster when catching the light, and their cascading, stringed arrangement creates a striking visual impact. This makes them a natural setting for customers to take photos and share, driving viral exposure and foot traffic for commercial spaces.
- 2. Transparent Separation, Blending Function and Aesthetics** The light-transmitting properties of the crystal bricks keep the space open and bright, avoiding the closed-off feel of traditional partitions while effectively defining functional zones. This creates a seamless transition between outdoor landscapes and indoor areas, balancing practicality with artistic expression.
- 3. Full-Customization with Hundreds of Material Options** JAFFA DESIGN PLASTIC provides a complete solution from design and manufacturing to installation. With hundreds of acrylic materials to choose from—including transparent, iridescent, frosted, and stone-like finishes—every detail can be precisely tailored to your space's style and brand identity, creating a truly unique partition.
- 4. Durable & Easy to Maintain for Outdoor Use** Made from high-weatherability acrylic, it is UV-resistant and weatherproof, resisting yellowing and warping. Its smooth surface is easy to clean, maintaining a brilliant appearance even in outdoor environments for long-term value.
