

## JAFFA Acrylic Premium Display System – Artistic Showcase Solutions for Commercial Spaces

### Our Product Introduction

#### Basic Information

- Minimum Order Quantity: 5set
- Price: Negotiable
- Packaging Details: Wooden box packaging, cardboard box packaging
- Delivery Time: 7-10 work days
- Payment Terms: L/C,D/P,T/T
- Supply Ability: 500sets/Year

#### Product Specification

- Material: PMAA
- Standard Size: Customizable
- Color: Customizable
- Feature: Rotatable
- Service: OEM/ODM
- Application: Mall/Restaurant/Office/Home/Exhibition/Guardrail

Product Description

Product Description

JAFFA Acrylic Display Systems are custom-designed display solutions crafted for premium dining, bars, brand showrooms, and commercial spaces. Using high-purity acrylic panels combined with precision metal frames and LED lighting systems, we create visually striking and functionally robust installations ideal for liquor displays, luxury retail showcases, art installations, and brand identity walls.

- **Visual Appeal:** Acrylic offers exceptional clarity, enabling fully transparent, translucent, frosted, and colored effects. Integrated LED lighting enhances the display with layered, premium aesthetics, highlighting products in a dynamic lightscape.
- **Structural Stability:** Thickened acrylic panels and reinforced metal frames ensure high load-bearing capacity, safely displaying bottles, accessories, and merchandise. The system boasts superior impact resistance and weatherability for long-term durability.
- **Customization:** Full customization is available for dimensions, shapes, lighting colors, and material combinations, ensuring seamless integration with diverse design styles and brand identities to create one-of-a-kind displays.

Product Attributes

- **Materials:** High-purity acrylic (PMMA) + stainless steel/aluminum frames; acrylic thickness options: 5mm–30mm
- **Processes:** Laser cutting, CNC engraving, heat bending, polishing, UV printing, metal welding
- **Lighting System:** Built-in LED strips (single-color/RGB), dimmable with smart control
- **Applications:** Bar liquor racks, F&B display cases, luxury retail shelves, brand showroom installations, art installations
- **Installation:** Wall-mounted, freestanding, recessed, suspended

Customization Parameters Table

Parameter	Options/Specifications
Acrylic Thickness	5mm / 8mm / 10mm / 12mm / 15mm / 20mm / 30mm
Overall Dimensions	Customizable to space; max single acrylic panel: 3000mm * 2000mm
Design Shapes	Linear, curved, custom shapes (based on CAD drawings)
Material Combinations	Acrylic + stainless steel/aluminum/solid wood; customizable metal finishes (brushed, painted)
Lighting Configurations	LED strips (single-color/RGB), adjustable spacing, smart dimming and scene modes
Load Capacity	Max load per shelf: 5–30kg (depending on thickness and structural design)
Surface Finishes	Clear, frosted, custom Pantone colors, anti-fingerprint coating

Frequently Asked Questions (FAQ)

2. What is the load-bearing capacity of acrylic display shelves?

Our displays are structurally engineered to meet specific needs, with thickened acrylic and metal frames supporting 5–30kg per shelf, safely holding bottles, accessories, and merchandise. Exact capacity depends on custom dimensions and thickness.

3. What is the lifespan and maintenance cost of the built-in LED lighting?

High-quality LED strips have a lifespan of over 50,000 hours and operate on low-voltage, safe power supplies. Modular strip design ensures easy maintenance and replacement at low cost.

4. What is the typical lead time for custom orders?

Standard display units take 10–15 days. Complex custom shapes or multi-material projects require 20–30 days, depending on design complexity and technical requirements.

5. Do you provide installation services?

We offer professional installation services nationwide. Alternatively, we provide detailed installation guides and 配套配件 to support self-installation by clients.

6. How should acrylic display units be cleaned and maintained?

For daily cleaning, use a soft cloth with a neutral detergent. Avoid abrasive tools or cleaners containing grinding agents to prevent surface scratches. Metal frames can be maintained with rust-preventative oil periodically.
