

## JAFFA Acrylic Store Art Display Stand – Geometric Aesthetic Showcase Solutions for Luxury Retail Spaces

### Our Product Introduction

for more products please visit us on [custom-acrylicproducts.com](http://custom-acrylicproducts.com)

#### Basic Information

- Minimum Order Quantity: 5set
- Price: Negotiable
- Packaging Details: Wooden box packaging, cardboard box packaging
- Delivery Time: 7-10 work days
- Payment Terms: L/C,T/T,D/P
- Supply Ability: 500sets/Year

#### Product Specification

- Material: PMAA
- Standard Size: Customizable
- Color: Customizable
- Feature: Rotatable
- Service: OEM/ODM
- Application: Mall/Restaurant/Office/Home/Exhibition/Guar

Product Description

Product Description

JAFFA Acrylic Store Art Display Stands are custom-designed artistic display units tailored for high-end brand stores, fashion boutiques, and premium retail spaces. Crafted from high-purity iridescent acrylic panels through precision heat bending and assembly, we create installations that blend geometric aesthetics with functional versatility, ideal for bag displays, apparel presentations, art installations, and window focal points.

- **Visual Appeal:** Iridescent acrylic produces a gradient rainbow effect under varying light, complemented by 3D triangular geometric textures, transforming the display stand into a spatial art piece that elevates store design and brand identity.
- **Flexible Structure:** Modular design supports free combination into staggered display arrays, enabling flexible layouts tailored to store flow and product characteristics for immersive visual focal points.
- **Customization:** Full customization is available for dimensions, shapes, colors, and textures, ensuring seamless integration with diverse design styles and brand identities to create one-of-a-kind store displays.

Product Attributes

- **Materials:** High-purity iridescent acrylic (PMMA), thickness options: 8mm–15mm
- **Processes:** Laser cutting, CNC engraving, heat bending, polishing, assembly
- **Surface Textures:** 3D triangular geometric textures, iridescent gradient effects
- **Applications:** High-end brand stores, fashion boutiques, premium retail stores, window displays, art installations
- **Installation:** Freestanding, freely combinable into array layouts

Customization Parameters Table

Parameter	Options/Specifications
Acrylic Thickness	8mm / 10mm / 12mm / 15mm
Single Unit Dimensions	Customizable to space; common sizes: 600*600*600mm, 800*800*800mm, non-standard sizes available
Design Shapes	Geometric triangular assembly, customizable staggered combination forms
Color Effects	Iridescent gradient, single-color transparent, frosted, custom Pantone colors
Load Capacity	Max load per unit: 10–30kg (depending on thickness and structural design)
Surface Finishes	Iridescent textures, anti-glare coating, anti-fingerprint coating

Frequently Asked Questions (FAQ)

2. Is the color effect of iridescent acrylic stable?

We use imported iridescent acrylic, where color effects are achieved through the panel's inherent optical structure, not surface coatings. This ensures long-term color stability without fading or peeling, maintaining natural gradient luster under varying light conditions.

3. What is the load-bearing capacity of acrylic display stands?

Our stands are structurally engineered to meet product display needs, with thickened acrylic panels and reinforced assembly, supporting 10–30kg per unit for safely displaying bags, apparel, and accessories. Exact capacity depends on custom dimensions and thickness.

4. What is the typical lead time for custom orders?

Standard-sized single units take 10–15 days. Multi-unit arrays or complex custom projects require 20–30 days, depending on layout and technical complexity.

5. Do you provide installation services?

We offer professional installation services nationwide, with precise positioning and layout customization. Alternatively, we provide detailed installation guides and 配套配件 to support self-installation by clients.

6. How should acrylic display stands be cleaned and maintained?

For daily cleaning, use a soft cloth with a neutral detergent. Avoid abrasive tools or cleaners containing grinding agents to prevent surface scratches. Iridescent textures require no special treatment and maintain their luster with regular cleaning.
