

## JAFFA Acrylic Store Renovation Solution – Artistic Transformation for Immersive Commercial Spaces

### Our Product Introduction

for more products please visit us on [custom-acrylicproducts.com](http://custom-acrylicproducts.com)

#### Basic Information

- Minimum Order Quantity: 5set
- Price: Negotiable
- Packaging Details: Wooden box packaging, cardboard box packaging
- Delivery Time: 7-10 work days
- Payment Terms: L/C,D/P,T/T
- Supply Ability: 500sets/Year

#### Product Specification

- Material: PMAA
- Standard Size: Customizable
- Color: Customizable
- Feature: Rotatable
- Service: OEM/ODM
- Application: Mall/Restaurant/Office/Home/Exhibition/Guar

## Product Description

### Product Description

JAFFA Acrylic Store Renovation Solution is an integrated spatial solution tailored for high-end brand stores, experiential retail spaces, and art galleries. Centered on high-purity acrylic, combined with metal frames, LED lighting systems, and custom structural design, we create commercial spaces that blend visual impact, functional versatility, and brand recognition, ideal for upgrading and renovating stores in beauty, fashion, luxury, and cultural sectors.

- **Visual Appeal:** Acrylic enables diverse effects, including fully transparent, translucent, frosted, iridescent, and gradient finishes. Combined with curved, wavy, and geometric designs, the store becomes an immersive art installation, elevating brand identity and customer engagement.
- **Functional Integration:** Display, wayfinding, partitioning, and lighting are integrated into acrylic structures, maximizing space utilization while meeting brand presentation, customer experience, and operational efficiency needs.
- **End-to-End Customization:** One-stop service from spatial planning and design to manufacturing and installation ensures seamless integration with store size, flow, and brand identity, creating one-of-a-kind commercial spaces.

### Product Attributes

- **Core Materials:** High-purity acrylic (PMMA), thickness options: 5mm–30mm, paired with stainless steel/aluminum frames
- **Processes:** Laser cutting, CNC engraving, heat bending, polishing, UV printing, metal welding, seamless assembly
- **Lighting System:** LED strips (single-color/RGB), smart dimming, color temperature adjustment, and scene modes
- **Applications:** High-end brand stores, experiential retail spaces, art galleries, pop-ups, flagship stores
- **Service Scope:** Spatial planning, design development, manufacturing, professional installation, after-sales maintenance

### Customization Parameters Table

Parameter	Options/Specifications
Acrylic Thickness	5mm / 8mm / 10mm / 12mm / 15mm / 20mm / 30mm
Design Shapes	Flat, curved, wavy, geometric assembly, custom shapes (based on CAD drawings)
Material Combinations	Acrylic + stainless steel/aluminum/solid wood/stone; customizable metal finishes (brushed, painted) and wood textures
Lighting Configurations	LED strips (single-color/RGB), color temperature 3000K–6500K, smart control and linked scenes
Functional Modules	Display cabinets, wayfinding systems, spatial partitions, ceiling structures, art installations, freely combinable
Surface Finishes	Clear, frosted, iridescent, gradient, custom Pantone colors, anti-glare/anti-fingerprint coating
Construction Period	Small stores (50–100 ): 15–30 days; large flagship stores (300 +): 30–60 days (assessed by complexity)

### Frequently Asked Questions (FAQ)

#### 1. What are the environmental and safety credentials of acrylic store renovations?

We use food-grade, high-purity acrylic that is formaldehyde-free and odor-free, meeting national environmental standards. Acrylic also offers excellent flame retardancy and impact resistance, complying with commercial space safety regulations.

#### 2. Does acrylic yellow or fade over long-term use in stores?

We use imported UV-resistant acrylic with professional coatings, maintaining color stability for over 10 years in indoor environments. For outdoor windows, specialized weather-resistant coatings are available.

#### 3. What is the typical lead time for custom renovation solutions?

From design confirmation to installation, small stores (50–100 ) take 15–30 days, while large flagship stores (300 +) take 30–60 days, depending on spatial complexity and functional modules.

#### 4. Do you provide nationwide installation services?

We have a professional installation team offering on-site measurement, design, and installation nationwide. For overseas projects, detailed installation guides and technical support are provided.

#### 5. How should acrylic store structures be cleaned and maintained?

For daily cleaning, use a soft cloth with a neutral detergent. Avoid abrasive tools or cleaners containing grinding agents. Metal frames

can be maintained with rust-preventative oil, and LED lighting systems are modular for easy maintenance.
