

JAFFA Acrylic Wall-Mounted Tea Display System – Transparent Showcase Solutions for Immersive Tea Spaces

Our Product Introduction

for more products please visit us on custom-acrylicproducts.com

Basic Information

- Minimum Order Quantity: 5set
- Price: Negotiable
- Packaging Details: Wooden box packaging, cardboard box packaging
- Delivery Time: 7-10 work days
- Payment Terms: L/C,D/P,T/T
- Supply Ability: 500sets/Year

Product Specification

- Material: PMAA
- Standard Size: Customizable
- Color: Customizable
- Feature: Rotatable
- Service: OEM/ODM
- Application: Mall/Restaurant/Office/Home/Exhibition/Guardrail

Product Description

Product Description

JAFFA Acrylic Wall-Mounted Tea Display System is a custom-designed professional display unit tailored for high-end tea spaces, brand tea shops, and cultural tea experience centers. Featuring high-purity transparent acrylic enclosures, metal frames, and wall-mounted recessed structures, we create installations that blend transparent aesthetics with professional tea storage functionality, transforming tea into a spatial art element while preserving quality through moisture and dust protection.

- **Visual Appeal:** Fully transparent acrylic enclosures provide unobstructed 360° viewing, showcasing the shape, color, and texture of tea leaves. Wall-mounted array layouts create a design-focused focal point for tea spaces.
- **Professional Storage:** Sealed acrylic enclosures effectively protect against moisture, dust, and odors. The chemically stable acrylic material ensures no reaction with tea, providing a reliable storage and display environment for premium teas.
- **Customization:** Full customization is available for enclosure dimensions, wall layouts, material combinations, and lighting configurations, enabling unique wall display arrays tailored to tea characteristics and space aesthetics.

Product Attributes

- **Materials:** High-purity transparent acrylic (PMMA) enclosures + stainless steel/aluminum frames; acrylic thickness options: 5mm–10mm
- **Processes:** Laser cutting, CNC engraving, heat bending, polishing, metal welding
- **Enclosure Shapes:** Circular recessed, customizable square and irregular shapes
- **Applications:** High-end tea spaces, brand tea shops, cultural tea experience centers, tea exhibitions, private tea rooms
- **Installation:** Wall-mounted recessed installation, freely combinable into array layouts

Customization Parameters Table

Parameter	Options/Specifications
Acrylic Thickness	5mm / 8mm / 10mm
Enclosure Dimensions	Diameter 150mm / 200mm / 250mm / 300mm, depth 50mm–150mm, non-standard sizes available
Wall Layouts	Customizable matrix, wavy, and free-form array layouts, with adjustable spacing and density
Material Combinations	Acrylic + stainless steel/aluminum frames; customizable metal finishes (brushed, painted)
Lighting Configurations	Optional LED strips (single-color/RGB), adjustable brightness and color temperature for immersive tea space ambiance
Tea Storage Capacity	Max tea storage per enclosure: 0.5kg–2kg (depending on custom dimensions and depth)
Surface Finishes	Clear acrylic, anti-glare coating, anti-fingerprint coating; customizable colors and textures for metal frames

Frequently Asked Questions (FAQ)

2. Is acrylic safe for tea storage?

We use food-grade, high-purity acrylic that is formaldehyde-free and odor-free, meeting national food contact material standards. The chemically stable acrylic ensures no reaction with tea, making it safe for storing all tea types.

3. How effective is moisture and dust protection?

The high-seal design, combined with wall-mounted recessed structures, effectively isolates moisture, dust, and odors, providing a dry, clean environment that extends tea shelf life and preserves flavor.

4. What is the typical lead time for custom orders?

Standard-sized single enclosures take 7–10 days. Multi-enclosure wall arrays or complex custom projects require 15–25 days, depending on layout and technical complexity.

5. Do you provide installation services?

We offer professional installation services nationwide, with precise positioning and layout customization based on wall structures. Alternatively, we provide detailed installation guides and 配套配件 to support self-installation by clients.

6. How should acrylic tea display systems be cleaned and maintained?

For daily cleaning, use a soft cloth with a neutral detergent on acrylic surfaces. Avoid abrasive tools or cleaners containing grinding agents to prevent scratches. Metal frames can be maintained with rust-preventative oil periodically.
