

JAFFA Custom Outdoor Acrylic Lighting Canopy, High-Clarity Polycarbonate Sunshade Roof, Villa/Commercial Corridor Glass Roof

Our Product Introduction

for more products please visit us on custom-acrylicproducts.com

Basic Information

- Minimum Order Quantity: 5set
- Price: Negotiable
- Packaging Details: Wooden box packaging, cardboard box packaging
- Delivery Time: 7-10 work days
- Payment Terms: L/C,D/P,T/T
- Supply Ability: 500sets/Year

Product Specification

- Material: PMMA
- Standard Size: Customizable
- Color: Customizable
- Feature: Luminous
- Service: OEM/ODM
- Application: Mall/Restaurant/Office/Home/Exhibition/Guar
- Highlight: **acrylic canopy, canopy acrylic, acrylic rain awning**

Description

- **High-Clarity Lighting + Sunshade & Rain Shelter Design:** Adopts black steel structure frame with high-clarity acrylic/polycarbonate panels, ensuring sufficient natural light while effectively shielding from wind and rain, ideal for outdoor lighting roofs of villas, commercial corridors and entrances.
- **Weather-Resistant UV-Resistant Acrylic Material:** Made of imported UV-resistant acrylic or PC polycarbonate with thickness 3–10mm, high and low temperature resistant, impact-resistant, anti-yellowing, light transmittance up to 92%, no cracking or discoloration for long-term use, complying with overseas outdoor building material safety standards.
- **Modular Splicing Structure:** The canopy is composed of multiple acrylic panels + steel/aluminum alloy frames in sections, customizable into single-slope, curved and multi-span shapes to adapt to different sizes of corridors, entrances and terraces.
- **Professional Waterproof Drainage System:** The frame is designed with water chutes and slopes, and the panels are spliced with sealing strips to drain quickly without water accumulation, effectively preventing rain leakage and frame corrosion.
- **Stable Wind-Resistant Structure:** The steel/aluminum alloy frame is thickened, firmly connected to the building main body through expansion bolts, with wind resistance up to level 12, adapting to coastal and windy areas, complying with overseas building safety codes such as ASTM/EN.
- **Multi-Scene Adaptability:** Can be used in villa corridors, commercial entrances, terrace skylights, carports and other scenarios, combining aesthetic, lighting and practical functions.
- **Eco-Friendly & Safe Craftsmanship:** Adopts laser cutting + bending + sealing assembly, no odor or formaldehyde, acrylic/PC material complies with EU ROHS environmental standards, flame retardant grade up to B1.

Sample fee

Prepaid sample fee

The proofing fee will be refunded for bulk orders, and will not be charged if you are not satisfied.

Parameter Item (English)	Parameter Value (Customizable)
Material	Imported High-Clarity Acrylic/PC Polycarbonate + Steel/Aluminum Alloy Frame + Sealing Strips
Color	Clear/Lake Blue/Smoke Gray (Customizable)
Structure	Single-Slope/Curved/Multi-Span + Modular Assembly
Standard Size	Single Span: W3–6m × L3–20m (Adjustable)
Thickness	Acrylic/PC Panel 3–10mm + Frame Wall Thickness 1.2–3.0mm
Craftsmanship	Laser Cutting + Bending + Polishing + Sealing Assembly
Weight Per Span	Approx. 50–200 kg (Depends on Size)
Packaging	Custom Carton/Wooden Frame + Bubble Film + Pearl Cotton (Shockproof)
Installation Method	Expansion Bolt Fixing + Sealed Splicing
Size Customization	Adjustable W/L, MOQ: 1 Set
Form Customization	Customizable Single-Slope/Curved/Multi-Span/Irregular Shape
Material Customization	Customizable Panel Material/Color/Thickness
Function Customization	Customizable Light Transmittance/Flame Retardant Grade/Wind Resistance Grade
Safety Customization	Customizable Frame Material/Thickness/Wind Resistance Grade
Waterproof Customization	Customizable Water Chute/Sealing Strips

PARTICULARITY

(Customized products, subject to the effect)
After cutting, it will affect the secondary sales.
If there is no quality problem, we don't support returning goods.
Thank you for your cooperation.
**If you need to return the goods, you will be charged 80%,
and the return postage will be borne by the buyer himself.**
I wish you a happy shopping!
If you have any questions.
Please contact our after-sales customer service.
**We will give a reasonable treatment plan in time ~
About delivery**
After the customer places an order.

the goods will be delivered within 1-3 working days under normal circumstances.
If the quantity is large or the process is complex,
the production cycle will be extended. If you have requirements for delivery time,
you can contact and negotiate.

About chromatic aberration

The product pictures are all real photos, but due to shooting technology,
light, display parameters and other factors.

The color of the received object will be different from the photo.

Please take the object as the standard.

About price

Because there are many specifications of raw materials,
please contact customer service for quotation for other specifications.

(The link price is for the convenience of customers to place an order, not the actual price of the product)

FAQ

2. What scenarios is this acrylic canopy suitable for?

Answer: It is suitable for outdoor scenarios such as villa corridors, commercial entrances, terrace skylights and carports, being an ideal choice balancing lighting, sunshade and rain protection.

3. How is the weather resistance of acrylic/PC panels? Does it meet overseas standards?

Answer: Made of imported UV-resistant material, it is high and low temperature resistant and UV-proof, no yellowing or cracking for long-term use, complying with overseas outdoor building material safety and environmental standards such as ASTM/EN/CE.

4. What is the waterproof and drainage effect of the canopy?

Answer: The frame is designed with water chutes and slopes, and the panels are spliced with sealing strips to drain quickly without water accumulation, effectively preventing rain leakage and frame corrosion.

5. Does it support large-span or multi-span customization?

Answer: Yes. Multi-span continuous canopies can be realized through modular splicing, with a maximum span of 6m, adapting to long-distance corridors and carports.

6. Is installation and transportation complicated?

Answer: The modular sectional design can be disassembled for transportation, reducing logistics costs; it is installed on-site by a professional team for frame fixing and panel sealing assembly, with convenient construction and controllable cycle.

ABOUT US

We are committed to providing customers with high-quality acrylic,
plexiglass and resin plate products to meet the needs of various industries.

Whether it's commercial display, interior decoration, advertising logo or home design,
we can make it according to customer's requirements.

We have advanced production equipment and technical team,
which can provide a variety of different processing technologies, including cutting, grinding, bending and bonding.

Ensure the accuracy and quality of products.

We also pay attention to innovation and research and development,
and constantly introduce new products and designs to meet the needs and trends of the market.

In terms of installation, we have an experienced installation team,
which can quickly and accurately complete the installation of products to ensure customer satisfaction and use effect.

Whether it is a business customer or an individual customer,
we are committed to providing you with professional, efficient and high-quality services.

No matter what kind of products you need to customize.

We can make it according to your needs and requirements.

Ensure the quality and effect of products.
