Description

- **Curved Panoramic Lighting Design:** Adopts dark gray steel structure frame with curved high-clarity acrylic/polycarbonate panels, with smooth and grand lines, ensuring sufficient natural light while effectively shielding from wind and rain, ideal for outdoor shelter facilities of villa terraces, courtyards and parking areas.
- **Weather-Resistant UV-Resistant Acrylic Material:** Made of imported UV-resistant acrylic or PC polycarbonate with thickness 3–10mm, high and low temperature resistant, impact-resistant, anti-yellowing, light transmittance up to 92%, no cracking or discoloration for long-term use, complying with overseas outdoor building material safety standards.
- **Modular Splicing Structure:** The terrace canopy is composed of multiple curved acrylic panels + steel frames in sections, customizable into single-span, multi-span and full-shade shapes to adapt to different sizes of terraces, courtyards and parking scenarios.
- **Professional Waterproof Drainage System:** The frame is designed with water chutes and slopes, and the panels are spliced with sealing strips to drain quickly without water accumulation, effectively preventing rain leakage and frame corrosion.
- **Stable Wind-Resistant Structure:** Thickened steel columns and beams, firmly connected to the ground/building main body through expansion bolts, with wind resistance up to level 12, adapting to coastal and windy areas, complying with overseas building safety codes such as ASTM/EN.
- **Multi-Scene Adaptability:** Can be used in villa terraces, courtyard leisure areas, carports, commercial entrance canopies and other scenarios, combining aesthetic, lighting and practical functions.
- **Eco-Friendly & Safe Craftsmanship:** Adopts laser cutting + bending + paint baking + sealing assembly, no odor or formaldehyde, acrylic/PC material complies with EU ROHS environmental standards, flame retardant grade up to B1.

Sample fee

Prepaid sample fee

The proofing fee will be refunded for bulk orders, and will not be charged if you are not satisfied.

Parameter Item (English)	Parameter Value (Customizable)
Material	Imported High-Clarity Acrylic/PC Polycarbonate + Steel Frame + Sealing Strips
Color	Clear/Lake Blue/Smoke Gray (Panel); Dark Gray (Frame)
Structure	Curved/Single-Span/Multi-Span + Modular Assembly
Standard Size	Single Span: W3-6m × L3-20m (Adjustable)
Thickness	Acrylic/PC Panel 3-10mm + Frame Wall Thickness 2-3mm
Craftsmanship	Laser Cutting + Bending + Paint Baking + Sealing Assembly
Weight Per Span	Approx. 80-250 kg (Depends on Size)
Packaging	Custom Carton/Wooden Frame + Bubble Film + Pearl Cotton (Shockproof)
Installation Method	Expansion Bolt Fixing + Sealed Splicing

Base Customization (English)	Returnable Value (Customizable)
Form Customization	Customizable Curved/Single-Slope/Multi-Span/Full-Shade
Material Customization	Customizable Panel Material/Color/Thickness; Frame Material/Color
Function Customization	Customizable Light Transmittance/Flame Retardant Grade/Wind Resistance Grade
Safety Customization	Customizable Frame Thickness/Wind Resistance/Fire Rating
Waterproof Customization	Customizable Water Chute/Sealing Strips

PARTICULARITY

(Customized products, subject to the effect)
 After cutting, it will affect the secondary sales.
 If there is no quality problem, we don't support returning goods.
 Thank you for your cooperation.

**If you need to return the goods, you will be charged 80%,
 and the return postage will be borne by the buyer himself.**

I wish you a happy shopping!
 If you have any questions.

Please contact our after-sales customer service.

We will give a reasonable treatment plan in time ~

About delivery

After the customer places an order,
 the goods will be delivered within 1-3 working days under normal circumstances.
 If the quantity is large or the process is complex,
 the production cycle will be extended. If you have requirements for delivery time,
 you can contact and negotiate.

About chromatic aberration

The product pictures are all real photos, but due to shooting technology,
 light, display parameters and other factors.
 The color of the received object will be different from the photo.
 Please take the object as the standard.

About price

Because there are many specifications of raw materials,
 please contact customer service for quotation for other specifications.
 (The link price is for the convenience of customers to place an order, not the actual price of the product)

2. What scenarios is this acrylic terrace canopy suitable for?

Answer: It is suitable for outdoor scenarios such as villa terraces, courtyard leisure areas, carports and commercial entrance canopies. The curved design is grand and beautiful, adapting to various architectural styles such as modern and European.

3. How is the weather resistance of acrylic/PC panels? Does it meet overseas standards?

Answer: Made of imported UV-resistant material, it is high and low temperature resistant and UV-proof, no yellowing or cracking for long-term use, complying with overseas outdoor building material safety and environmental standards such as ASTM/EN/CE.

4. What is the waterproof and drainage effect of the terrace canopy?

Answer: The frame is designed with water chutes and slopes, and the panels are spliced with sealing strips to drain quickly without water accumulation, effectively preventing rain leakage and frame corrosion.

5. Does it support large-span or multi-span customization?

Answer: Yes. Multi-span continuous canopies can be realized through modular splicing, with a maximum span of 6m, adapting to long-distance terraces and parking areas.

6. Is installation and transportation complicated?

Answer: The modular sectional design can be disassembled for transportation, reducing logistics costs; it is installed on-site by a professional team for frame fixing and panel sealing assembly, with convenient construction and controllable cycle.

ABOUT US

We are committed to providing customers with high-quality acrylic, plexiglass and resin plate products to meet the needs of various industries.

Whether it's commercial display, interior decoration, advertising logo or home design, we can make it according to customer's requirements.

We have advanced production equipment and technical team, which can provide a variety of different processing technologies, including cutting, grinding, bending and bonding.

Ensure the accuracy and quality of products.

We also pay attention to innovation and research and development, and constantly introduce new products and designs to meet the needs and trends of the market.

In terms of installation, we have an experienced installation team, which can quickly and accurately complete the installation of products to ensure customer satisfaction and use effect.

Whether it is a business customer or an individual customer, we are committed to providing you with professional, efficient and high-quality services.

No matter what kind of products you need to customize.

We can make it according to your needs and requirements.

Ensure the quality and effect of products.
