

JAFFA Colored Acrylic Landscape Canopy – Artistic Daylighting Solutions for Outdoor Spaces

Our Product Introduction

for more products please visit us on custom-acrylicproducts.com

Basic Information

- Minimum Order Quantity: 5set
- Price: Negotiable
- Packaging Details: Wooden box packaging, cardboard box packaging
- Delivery Time: 7-10 work days
- Payment Terms: L/C,D/P,T/T
- Supply Ability: 500sets/Year

Product Specification

- Material: PMMA
- Standard Size: Customizable
- Color: Customizable
- Feature: Luminous
- Service: OEM/ODM
- Application: Mall/Restaurant/Office/Home/Exhibition/Guar

Product Description

Product Description

JAFFA Colored Acrylic Landscape Canopies are custom-designed artistic daylighting products tailored for courtyards, commercial landscapes, cultural tourism projects, and high-end residences. Crafted from high-transparency, color-rich acrylic panels paired with lightweight metal frames, we create canopy systems that blend transparent daylighting with artistic expression, ideal for courtyard walkways, landscape paths, commercial atriums, and outdoor leisure areas.

- **Artistic Daylighting:** Acrylic enables diverse effects, including transparent, colored, gradient, and iridescent finishes. Combined with suspended colored decorative elements, natural light creates vibrant shadows, meeting practical needs for rain and sun protection while serving as spatial art installations.
- **Durable Protection:** Imported UV-resistant acrylic provides outstanding weatherability, resisting wind, rain, and sun exposure to prevent yellowing, cracking, or fading over long-term outdoor use with minimal maintenance.
- **Customization:** Full customization is available for dimensions, shapes, color combinations, and decorative elements, including flat, sloped, and custom roof forms to suit diverse landscape styles.

Product Attributes

- **Materials:** High-weatherability colored acrylic (PMMA) + aluminum alloy/stainless steel frames; acrylic thickness options: 5mm–15mm
- **Processes:** Heat bending, laser cutting, CNC engraving, surface coating, color splicing
- **Colors:** Clear, lake blue, magenta, lemon yellow, gradient, iridescent, custom Pantone colors
- **Applications:** Courtyard walkways, landscape paths, commercial atriums, outdoor leisure areas, cultural tourism experience zones
- **Structural Forms:** Flat, sloped, custom roofs, with suspended colored decorative elements

Customization Parameters Table

Parameter	Options/Specifications
Acrylic Thickness	5mm / 8mm / 10mm / 12mm / 15mm
Single Panel Dimensions	Max 2000mm * 3000mm; larger spans available via panel splicing
Design Shapes	Flat, sloped, curved, custom shapes (based on CAD drawings)
Color Combinations	Single-color, dual-color splicing, gradient, iridescent, custom brand-exclusive color schemes
Decorative Elements	Suspended colored acrylic discs, geometric shapes, freely combinable into dynamic landscapes
Frame Materials	Aluminum alloy (electrophoretic/painted), stainless steel (brushed/polished); customizable colors and finishes
Wind Resistance	Designed to regional requirements; up to Category 12 typhoon resistance (with reinforced custom structures)
Construction Period	Small landscape canopies: 10–15 days; large landscape walkways: 20–30 days (assessed by size and complexity)

Frequently Asked Questions (FAQ)

2. Is the color effect of colored acrylic stable?

We use imported colored acrylic, where colors are achieved through masterbatch in the panel, not surface coatings. This ensures long-term color stability without fading or peeling, maintaining natural color layers under varying light conditions.

3. What is the load-bearing capacity of landscape canopies?

Our lightweight high-strength frame design, paired with thickened acrylic panels, safely withstands wind, rain, and snow loads. Suspended decorative elements are professionally engineered for safety.

4. What is the typical lead time for custom orders?

Standard landscape canopies take 10–15 days for production and installation. Large landscape walkways or complex color combination projects require 20–30 days, depending on size and technical complexity.

5. Do you provide nationwide installation services?

We have a professional landscape installation team offering on-site measurement, design, and installation nationwide. For cultural

tourism projects, we collaborate with landscape architects to provide integrated solutions.

6. How should colored acrylic landscape canopies be cleaned and maintained?

For daily cleaning, use a soft cloth with a neutral detergent. Avoid abrasive tools or cleaners containing grinding agents to prevent surface scratches. Metal frames can be maintained with rust-preventative oil, and suspended decorative elements can be removed for individual cleaning.
