

JAFFA Custom Semi-Transparent Acrylic Gallery Partition & Display Shelf, Illuminated Art Wall, Partition Display System for Museum/Art Gallery

Our Product Introduction

for more products please visit us on custom-acrylicproducts.com

Basic Information

- Minimum Order Quantity: 5set
- Price: Negotiable
- Packaging Details: Wooden box packaging, cardboard box packaging
- Delivery Time: 7-10 work days
- Payment Terms: L/C,D/P,T/T
- Supply Ability: 500sets/Year

Product Specification

- Material: PMMA
- Standard Size: Customizable
- Color: Customizable
- Feature: Luminous
- Service: OEM/ODM
- Application: Mall/Restaurant/Office/Home/Exhibition/Guardrail
- Highlight: **acrylic in architecture, architectural acrylic**

Description

- **Semi-Transparent Spatial Partition Design:** Adopts high-clarity frosted/semi-transparent acrylic panels with wood/metal frames, which not only divide the gallery functional areas but also maintain spatial permeability, allowing soft transition of light and sight, ideal for art galleries and museums.
- **Illuminated Embedded Display Compartments:** The lower part is reserved with illuminated display compartments with built-in LED strips, which diffuse light evenly to highlight exhibits such as paintings and manuscripts, enhancing the display texture and atmosphere of artworks.
- **Modular Splicing Structure:** The display shelf is composed of multiple acrylic panels + frames in sections, prefabricated in the factory and assembled on-site, with flexible adjustment of height, width and number of display compartments to adapt to different gallery layouts and exhibition needs.
- **Professional Light Guide & Ventilation Design:** Acrylic panels have both soft light and ventilation properties, avoiding moisture damage to exhibits, while making the gallery light more uniform and soft, protecting artworks from direct strong light.
- **Stable and Safe Frame Structure:** Adopts solid wood/aluminum alloy frames, thickened columns and horizontal keels, fixed to the ground/ceiling through expansion bolts, with high wind and earthquake resistance, complying with overseas public building safety codes such as ASTM/EN.
- **Multi-Scene Adaptability:** Can be used in art galleries, museums, art exhibition halls, cultural and creative spaces and other scenarios, being a professional exhibition system integrating spatial partition and exhibit display.
- **Eco-Friendly & Safe Craftsmanship:** Adopts imported eco-friendly acrylic + solid wood/aluminum alloy frame, no formaldehyde or odor, acrylic material complies with EU ROHS environmental standards, flame retardant grade up to B1.

Sample fee

Prepaid sample fee

The proofing fee will be refunded for bulk orders, and will not be charged if you are not satisfied.

| Parameter Item (English) | Parameter Value (Customizable) |
|--------------------------|--|
| Material | Imported Semi-Transparent/Frosted Acrylic + Solid Wood/Aluminum Alloy Frame + LED Strips |
| Color | Clear White/Off White/Light Gray (Customizable) |
| Structure | Vertical Strip Partition + Embedded Display Compartments + Modular Assembly |
| Standard Size | Single Set: H240–320cm × W80–120cm (Adjustable) |
| Thickness | Acrylic Panel 3–8mm + Frame Wall Thickness 2–5mm |
| Craftsmanship | Laser Cutting + Polishing + Frame Assembly + Light Wiring |
| Weight Per Set | Approx. 30–80 kg (Depends on Size) |
| Packaging | Custom Carton/Wooden Frame + Bubble Film + Pearl Cotton (Shockproof) |
| Installation Method | Top/Bottom Expansion Bolt Fixing + Splicing Assembly |
| Size Customization | Adjustable H/W, MOQ: 1 Set |

| Parameter Item (English) | Parameter Value (Customizable) |
|--------------------------|--|
| Size Customization | Adjustable H/W; MOQ: 1 Set |
| Form Customization | Customizable Vertical Strip/Grid/With/Without Display Compartments |
| Material Customization | Customizable Acrylic Color/Thickness/Frame Material |
| Light Customization | Customizable Light Color/Brightness/Dimming Mode |
| Safety Customization | Customizable Frame Load-Bearing/Wind Resistance/Fire Rating |
| Function Customization | Customizable Light Control/Display Compartment Size |

PARTICULARITY

(Customized products, subject to the effect)
 After cutting, it will affect the secondary sales.
 If there is no quality problem, we don't support returning goods.
 Thank you for your cooperation.

**If you need to return the goods, you will be charged 80%,
 and the return postage will be borne by the buyer himself.**

I wish you a happy shopping!

If you have any questions.

Please contact our after-sales customer service.

We will give a reasonable treatment plan in time ~

About delivery

After the customer places an order,
 the goods will be delivered within 1-3 working days under normal circumstances.
 If the quantity is large or the process is complex,
 the production cycle will be extended. If you have requirements for delivery time,
 you can contact and negotiate.

About chromatic aberration

The product pictures are all real photos, but due to shooting technology,
 light, display parameters and other factors.

The color of the received object will be different from the photo.

Please take the object as the standard.

About price

Because there are many specifications of raw materials,
 please contact customer service for quotation for other specifications.

(The link price is for the convenience of customers to place an order, not the actual price of the product)

FAQ

2. What scenarios is this acrylic gallery display shelf suitable for?

Answer: It is suitable for professional exhibition scenarios such as art galleries, museums, art exhibition halls and cultural and creative spaces, being an ideal solution integrating spatial partition and exhibit display.

3. What is the light transmittance and privacy effect of semi-transparent acrylic?

Answer: The frosted/semi-transparent acrylic has a light transmittance of about 50%–70%, which not only ensures the light permeability of the gallery but also blurs the rear sight, realizing spatial partition without closure, and protecting exhibits from direct strong light.

4. Is the light of the illuminated display compartments eye-caring? Does it meet overseas electrical safety standards?

Answer: The LED strips are flicker-free and blue-light hazard-free, with soft and non-glaring light; the power supply and lamp body are sealed, complying with overseas electrical safety codes such as CE/UL, no leakage risk.

5. Does it support large-span or multi-group continuous splicing?

Answer: Yes. Multi-group continuous display walls can be realized through modular splicing, with a maximum span of 120cm per set, adapting to the long-distance gallery layout needs.

6. Is installation and transportation complicated?

Answer: The modular sectional design can be disassembled for transportation, reducing logistics difficulty; it is installed on-site by a professional team for top/bottom fixing and splicing assembly, with supporting light wiring and debugging, convenient construction and controllable cycle.

ABOUT US

We are committed to providing customers with high-quality acrylic, plexiglass and resin plate products to meet the needs of various industries. Whether it's commercial display, interior decoration, advertising logo or home design, we can make it according to customer's requirements.

We have advanced production equipment and technical team, which can provide a variety of different processing technologies, including cutting, grinding, bending and bonding.

Ensure the accuracy and quality of products.

We also pay attention to innovation and research and development, and constantly introduce new products and designs to meet the needs and trends of the market.

In terms of installation, we have an experienced installation team, which can quickly and accurately complete the installation of products to ensure customer satisfaction and use effect.

Whether it is a business customer or an individual customer, we are committed to providing you with professional, efficient and high-quality services.

No matter what kind of products you need to customize.

We can make it according to your needs and requirements.

Ensure the quality and effect of products.
