

## JAFFA Large Acrylic Sculpture Transparent Art Installations For Commercial Spaces

Our Product Introduction

for more products please visit us on [custom-acrylicproducts.com](http://custom-acrylicproducts.com)

### Basic Information

- Minimum Order Quantity: 5set
- Price: Negotiable
- Packaging Details: Wooden box packaging, cardboard box packaging
- Delivery Time: 7-10 work days
- Payment Terms: L/C,D/P,T/T
- Supply Ability: 500sets/Year

### Product Specification

- Material: PMMA
- Standard Size: Customizable
- Color: Customizable
- Feature: Luminous
- Service: OEM/ODM
- Application: Mall/Restaurant/Office/Home/Exhibition/Guardrail
- Highlight: **acrylic in architecture, architectural acrylic**

### Product Description

JAFFA Large Transparent Acrylic Sculptures are custom-designed transparent art installations tailored for high-end commercial spaces, brand showrooms, cultural tourism landmarks, and public art projects. Crafted from high-purity transparent acrylic panels through precision heat bending, seamless assembly, and integral casting, we create large-scale sculptures that blend visual impact with artistic expression, ideal for shopping mall atriums, brand showrooms, cultural tourism attractions, and urban landmarks.

- **Transparent Aesthetics:** Fully transparent acrylic provides unobstructed visibility, delivering a crystal-clear texture under varying light. Combined with dynamic light and environmental interaction, sculptures become spatial art focal points.
- **Artistic Expression:** Customizable animal, abstract, and natural forms with gradient, iridescent, embedded metal/crystal, and LED backlighting/side-lighting effects, enabling avant-garde modern art that seamlessly integrates with spatial styles.
- **End-to-End Customization:** One-stop art installation solutions from conceptual design, 3D modeling, structural calculation to production and installation, ensuring seamless integration with spatial scale and identity to create one-of-a-kind public artworks.

### Product Attributes

- **Materials:** High-purity transparent acrylic (PMMA), thickness options: 20mm–100mm (customized to sculpture dimensions)
- **Processes:** Integral casting, heat bending, seamless assembly, CNC precision carving, mirror polishing
- **Effect Customization:** Clear, gradient, iridescent, embedded metal/crystal, LED backlighting/side-lighting
- **Applications:** Shopping mall atriums, brand showrooms, cultural tourism attractions, urban landmarks, public art projects
- **Structural Forms:** Animal, abstract, natural forms, custom irregular shapes

### Customization Parameters Table

Parameter	Options/Specifications
Acrylic Thickness	20mm / 30mm / 50mm / 80mm / 100mm (calculated based on sculpture height and structure)
Sculpture Dimensions	Height: 1m–5m; Width: 1m–8m; Depth: 0.5m–3m; non-standard sizes available (max height 10m)
Design Shapes	Animal forms (dolphins, whales, birds, etc.), abstract forms, natural forms (waves, mountains, etc.), customizable based on 3D models
Effect Configurations	Clear, gradient, iridescent, embedded metal/crystal, LED backlighting/side-lighting (single-color/RGB), dynamic light effects supported
Load Capacity	Sculpture self-weight: 50kg–500kg (customized to dimensions and thickness); steel structure base for stability
Wind Resistance	Outdoor sculptures designed to regional requirements; up to Category 12 typhoon resistance (with reinforced custom structures)
Construction Period	Small sculptures (≤2m): 20–30 days; large sculptures (> 2m): 45–60 days (assessed by size and technical complexity)

### Frequently Asked Questions (FAQ)

#### 2. What is the safety of large acrylic sculptures?

We use high-strength acrylic panels and steel structure bases. All sculptures undergo professional structural calculation and impact resistance testing for safe indoor and outdoor use. Outdoor sculptures also receive wind-resistant and anti-aging treatments for long-term safety.

#### 3. What is the lifespan of acrylic sculptures?

Using imported UV-resistant acrylic, our sculptures maintain color stability and transparency for over 10 years in normal environments. Outdoor sculptures are additionally treated with weather-resistant coatings to extend lifespan.

#### 4. What is the typical lead time for custom orders?

Small sculptures (≤2m) take 20–30 days for production and installation. Large sculptures (> 2m) or complex effect customization require 45–60 days, depending on size and technical complexity.

#### 5. Do you provide nationwide installation services?

We have a professional art installation team offering on-site measurement, design, and installation nationwide. For cultural tourism landmark projects, we collaborate with artists to provide integrated art solutions.

#### **6. How should large acrylic sculptures be cleaned and maintained?**

For daily cleaning, use a soft cloth with a neutral detergent. Avoid abrasive tools or cleaners containing grinding agents to prevent surface scratches. Outdoor sculptures can be periodically maintained with specialized acrylic care products to preserve transparency.
