Basic Information

- Minimum Order Quantity: 5set
- Price: Negotiable
- Packaging Details: Wooden box packaging, cardboard box packaging
- Delivery Time: 7-10 work days
- Payment Terms: L/C,D/P,T/T
- Supply Ability: 500sets/Year

Product Specification

- Material: PMMA
- Standard Size: Customizable
- Color: Customizable
- Feature: Luminous
- Service: OEM/ODM
- Application: Mall/Restaurant/Office/Home/Exhibition/Guardrail
- Highlight: **Acrylic Neon Illuminated Letters, PMMA acrylic channel letters**

Product Description

Product Description (Short Paragraph)

Acrylic neon illuminated letters combine a high-transparency acrylic backboard with food-grade silicone neon light strips to replicate the smooth light effect of traditional neon tubes, while being lighter, safer, and more durable. They are no longer cold signs, but emotional symbols of space – the warmth of "Welcome" in a café, the attitude of "Trend Pioneer" in a boutique, the romance of "Eternal Moment" on a wedding backdrop, giving every space its own temperature.

Product Attributes (Bullet Points)

- Core Materials: High-transparency acrylic backboard + food-grade silicone neon light strips + stainless steel/aluminum alloy frames
- Craftsmanship: Laser cutting, seamless splicing, neon light strip embedding, waterproof sealing treatment
- Light Effects: Single-color constant light, RGB gradient, breathing/flashing (APP control supported)
- Application Scenarios: Café soft furnishings, boutique background walls, wedding arrangements, social media check-in spots, home decor
- Installation Methods: Wall-mounted, suspended, desktop stand

Customization Parameters Table

Parameter	Options/Specifications
Single Character Height	10cm–150cm, ultra-small/large sizes available for customization
Fonts/Patterns	Chinese/English, numbers, custom patterns (vector files required)
Color Effects	Single-color (white/warm yellow/pink/blue, etc.), RGB iridescent, gradient, dynamic effects
Power Supply	220V power adapter, USB charging, battery-powered (for mobile scenarios)
Waterproof Rating	IP65 (IP68 available for outdoor/humid environments)
Installation Kits	Expansion screws, hanging brackets, acrylic bases, magnetic accessories (configured as needed)

FAQs (Focused on Selling Points)

1. What is the difference between acrylic neon letters and traditional neon lights?

Acrylic neon letters are 50% lighter, mercury-free, shatter-resistant, with more uniform and soft light effects, and a service life three times longer than traditional neon.

2. Can dynamic light effects be achieved?

Yes. Multiple dynamic modes such as RGB gradient, breathing, and flashing are supported, controllable via APP or remote control, suitable for parties and pop-up stores.

3. Will they fade when used outdoors?

Our UV-resistant silicone light strips and acrylic coatings ensure no fading or atomization for over 5 years of outdoor use, with a waterproof rating up to IP68 to withstand heavy rain and high temperatures.
