- Delivery Time: 7-10 work days
- Payment Terms: L/C,D/P,T/T
- Supply Ability: 500sets/Year

Product Specification

- Material: PMMA
- Standard Size: Customizable
- Color: Customizable
- Feature: Luminous
- Service: OEM/ODM
- Application: Mall/Restaurant/Office/Home/Exhibition/Guardrail
- Highlight: **Acrylic Mini Illuminated Letters, Commercial Spaces acrylic channel letters**

Product Description

Product Description (Short Paragraph)

Acrylic mini illuminated letters, with ultra-small sizes (minimum 5cm) and side-lighting technology, maximize "exquisiteness". They are no longer grand signs, but finishing touches in space – "CASHIER" at checkout counters, "WC" in restrooms, "RECOMMENDED" on menus, guiding circulation with soft light while enhancing spatial refinement, making them ideal for commercial space guidance.

Product Attributes (Bullet Points)

- Core Materials: High-transparency acrylic (3mm–5mm) + side-emitting LED beads + ABS/metal bases
- Craftsmanship: Laser precision carving, side-emitting LED embedding, seamless polishing
- Light Effects: Single-color constant light (white/warm yellow), dual-color switching
- Application Scenarios: Checkout signs, restroom signs, menu boards, desktop ornaments, window displays
- Installation Methods: Desktop stand, magnetic, adhesive

Customization Parameters Table

Parameter	Options/Specifications
Single Character Height	5cm–20cm (mini sizes for close-range guidance)
Content Forms	Chinese/English, numbers, icons (e.g., cashier/restroom symbols), QR codes (embeddable)
Acrylic Thickness	3mm (lightweight), 5mm (enhanced texture)
Power Supply	USB charging (8–12 hours of battery life), battery-powered (button/AA batteries)
Color Options	Clear acrylic + white light, frosted acrylic + warm yellow light (dual-color switching available for customization)
Base Materials	ABS plastic (cost-effective), stainless steel (premium texture), solid wood (vintage style)

FAQs (Focused on Selling Points)

1. Is the brightness of mini illuminated letters sufficient?

Yes. Side-lighting technology ensures uniform and soft light, clearly visible even at 5cm while avoiding glare.

2. What is the battery life?

USB-charged models last 8–12 hours on a full charge, while battery-powered models last 1–3 months (depending on usage frequency).

3. Can QR codes be embedded?

Yes. QR codes can be engraved or printed on the acrylic surface, enabling link redirection for both guidance and marketing functions.
