

Acrylic Gradient Art Wayfinding Signs – Aesthetic Narrative Expression of Spatial Circulation

Our Product Introduction

Basic Information

- Minimum Order Quantity: 5set
- Price: Negotiable
- Packaging Details: Wooden box packaging, cardboard box packaging
- Delivery Time: 7-10 work days
- Payment Terms: L/C,T/T,D/P
- Supply Ability: 500sets/Year

Product Specification

- Material: PMMA
- Standard Size: Customizable
- Color: Customizable
- Feature: Luminous
- Service: OEM/ODM
- Application: Mall/Restaurant/Office/Home/Exhibition/Guardrail
- Highlight: **modular acrylic wayfinding, custom acrylic wayfinding, oem acrylic wayfinding**

Product Description

Product Description (Short Paragraph)

Acrylic gradient art wayfinding signs use high-transparency acrylic as a carrier, transforming cold wayfinding information into aesthetic narratives in space through gradient colors, water ripple textures, and artistic typography. No longer just tools for "indicating direction", they are visual nodes in spatial circulation – from entrances to floors, from functional areas to rest areas, guiding circulation with gradient colors and flowing textures while enhancing the artistic texture of space, making them ideal for high-end office buildings, art galleries, and boutique hotels.

Product Attributes (Bullet Points)

- Core Materials: High-transparency acrylic (5mm–10mm) + stainless steel/aluminum alloy hanging brackets + LED backlight (optional)
- Craftsmanship: Laser cutting, gradient UV printing, water ripple texture hot pressing, artistic typography design
- Visual Effects: Gradient colors, water ripple textures, artistic typography, dual effects day and night (optional backlight)
- Application Scenarios: High-end office buildings, art galleries, boutique hotels, cultural and creative spaces, commercial complexes
- Installation Methods: Wall-mounted (floating/borderless), floor-standing, recessed

Customization Parameters Table

Parameter	Options/Specifications
Overall Dimensions	Width 30cm–120cm, Height 60cm–200cm, special-shaped sizes available for customization
Acrylic Thickness	5mm (lightweight translucent), 8mm (balanced texture), 10mm (heavy stable)
Gradient Effects	Single-color gradient (red/blue/pink, etc.), dual-color gradient (cold-warm collision), rainbow gradient, water ripple texture gradient
Content Forms	Floor numbers, functional area names, wayfinding arrows, floor overview maps, artistic patterns (e.g., bamboo/lines)
Lighting Configuration	No light (pure art wayfinding), LED backlight (gradient effect), RGB iridescent (dynamic gradient, optional)
Installation Kits	Stainless steel invisible hanging brackets, expansion screws, floor bases, acrylic brackets (configured as needed)

FAQs (Focused on Selling Points)

1. Will gradient effects fade, and are they suitable for outdoor use?

Our imported UV-resistant gradient inks ensure no fading or atomization for over 5 years of outdoor use; for outdoor applications, IP65 waterproof enhanced versions are available to withstand rain and high temperatures.

2. Can exclusive artistic patterns be customized, such as brand IP or space themes?

Yes. Simply provide vector files of artistic patterns, and we can achieve 1:1 restoration through UV printing or hot pressing, making wayfinding signs an extension of the space theme.

3. Can the gradient effect of LED backlighting be adjusted?

Yes. Stepless dimming and gradient speed adjustment are supported, allowing light effect switching for day/night scenarios to ensure wayfinding clarity while enhancing spatial atmosphere.
