Product Description

Product Description (Short Paragraph)

Acrylic minimalist floor wayfinding signs take "less is more" as the design core, restoring the essence of wayfinding information – clear, direct, and unobtrusive – with high-transparency acrylic, sans-serif fonts, and borderless design. Abandoning redundant decoration, they construct spatial order with minimalist visual language, making floor information and functional wayfinding clear at a glance, making them the preferred wayfinding solution for modern office buildings, co-working spaces, and minimalist hotels.

Product Attributes (Bullet Points)

- Core Materials: High-transparency acrylic (3mm–8mm) + stainless steel invisible hanging brackets + silk screen/UV printing (sans-serif fonts)
- Craftsmanship: Laser precision carving, borderless cutting, silk screen/UV high-definition printing, floating installation
- Visual Effects: Minimalist borderless, sans-serif fonts, high-transparency texture, clear and direct information
- Application Scenarios: Modern office buildings, co-working spaces, minimalist hotels, commercial complexes, public buildings
- Installation Methods: Wall-mounted (floating 1cm–3cm), recessed, floor-standing

Customization Parameters Table

Parameter	Options/Specifications
Overall Dimensions	Width 20cm–80cm, Height 40cm–150cm, standard modules available for customization (suitable for batch wayfinding)
Acrylic Thickness	3mm (lightweight minimalist), 5mm (balanced texture), 8mm (heavy stable)
Font Styles	Sans-serif (e.g., Source Han Sans/Helvetica), minimalist artistic fonts (optional)
Content Forms	Floor numbers, functional area names, wayfinding arrows, floor overview maps, QR codes (embedded for navigation)
Surface Treatment	High-transparency, frosted (anti-glare, suitable for office spaces), silk screen printing (black and white minimalist), UV printing (color accents, optional)
Installation Methods	Floating wall-mounted (invisible brackets), recessed (flush with wall), floor-standing (acrylic brackets)

FAQs (Focused on Selling Points)

1. Does frosted acrylic affect the clarity of wayfinding information?

No. Our fine frosted technology prevents glare (avoiding reflective glare in office spaces) while ensuring text is clearly legible, improving information recognition efficiency by 30%.

2. Can standard modules be customized in batches, suitable for unified wayfinding in office buildings?

Yes. Batch customization of standard sizes and fonts is supported to ensure consistent wayfinding style throughout the building, while reducing costs and installation difficulty.

3. Does floating installation appear flimsy?

No. We customize stainless steel invisible hanging brackets based on size, with a floating distance of 1cm–3cm, maintaining minimalist vision while ensuring structural stability, even on 8mm-thick acrylic.
