Product Description

Product Description (Short Paragraph):

Acrylic mini wayfinding signs, with ultra-small sizes (minimum 10cm) and exquisite craftsmanship, become wayfinding finishing touches in small spaces. No longer grand wall signs, they are delicate details on elevator entrances, checkout counters, and doorknobs – palm-sized floor numbers, coffee cup-sized "Caution Wet Floor" prompts, conveying spatial temperature with delicate texture, making them ideal for boutique hotels, community shops, and window coffee shops.

Product Attributes (Bullet Points):

- Core Materials: High-transparency acrylic (3mm–5mm) + metal/wooden bases + silk screen/laser engraving (wayfinding information)
- Craftsmanship: Laser precision carving, surface polishing, base splicing, waterproof sealing treatment
- Visual Effects: Miniature and exquisite, detailed, scratch-resistant, portable and mobile
- Application Scenarios: Boutique hotels, community shops, window coffee shops, office workstations, public restrooms
- Installation Methods: Desktop stand, magnetic, adhesive, suspended

Customization Parameters Table:

Parameter	Options/Specifications
Overall Dimensions	Width 10cm–30cm, Height 15cm–40cm (miniature sizes for small spaces)
Acrylic Thickness	3mm (lightweight and portable), 5mm (balanced texture)
Content Forms	Floor numbers, functional prompts (e.g., "Caution Wet Floor" "Smoke-Free Area"), brand slogans, QR codes (embedded for navigation)
Surface Treatment	High-transparency, frosted (anti-glare), silk screen printing (black and white minimalist), laser engraving (concave-convex texture, scratch-resistant)
Base Materials	ABS plastic (cost-effective), stainless steel (premium texture), solid wood (vintage style), acrylic (transparent integrated)
Waterproof Rating	IP65 (IP68 available for restrooms/outdoor shops)

FAQs (Focused on Selling Points):

2. Is the clarity of mini wayfinding signs sufficient for small spaces like elevator entrances?

Yes. Laser engraving and silk screen printing ensure text is sharp and clear, quickly recognizable even at 10cm, adapting to small spaces such as elevator entrances and checkout counters.

3. Can they be used for mobile scenarios, such as "Pick-up Counter" prompts in window coffee shops?

Yes. Support magnetic/adhesive installation, or pairing with portable bases for easy movement, adapting to flexible scenarios such as window coffee shops and pop-up stores.

4. Will laser-engraved wayfinding information wear out, suitable for high-frequency touch scenarios?

No. Our deep laser engraving creates concave-convex information that is resistant to wear. Simply wipe with a soft cloth for daily use, remaining clear and exquisite long-term.
