## Product Description

### Product Description (Short Paragraph)

Acrylic floating display cases use borderless design + invisible bases to make collections "float" within transparent cabinets, abandoning the heaviness of traditional cases and highlighting collection value with minimalist vision. They are "exclusive display stands" for high-end toys, limited-edition sneakers, and art collections – the clear cabinet displays details without obstruction, while the floating effect makes collections the focal point of the space, ideal for collectors, art enthusiasts, and high-end homes.

### Product Attributes (Bullet Points)

- Core Materials: High-transparency acrylic (5mm–10mm) + invisible acrylic base + magnetic dustproof cover
- Craftsmanship: Borderless cutting, seamless splicing, invisible base embedding, magnetic sealing
- Visual Effects: Borderless floating, unobstructed high-transparency, minimalist premium feel, dust and moisture resistance
- Application Scenarios: High-end toy display, limited-edition shoe 陈列, art collection protection, jewelry display
- Installation Methods: Desktop placement, wall-mounted (invisible hanging brackets optional), display case recessed (optional)

### Customization Parameters Table

| Parameter                  | Options/Specifications   |
|----------------------------|--|
| Overall Dimensions         | Width 30cm–80cm, Height 30cm–60cm, Depth 15cm–30cm, special-shaped sizes (for sneakers/sculptures) available for customization |
| Acrylic Thickness          | 5mm (lightweight floating), 8mm (texture support), 10mm (heavy stable, for large collections)                                  |
| Base Design                | Invisible acrylic base (1cm–3cm height for floating effect), LED illuminated base (optional, lights up collections at night)   |
| Dustproof Design           | Magnetic dustproof cover (borderless, no visual impact), sliding dustproof door (optional, for large collections)              |
| Wall-Mounted Configuration | Invisible stainless steel hanging brackets (optional, maintains floating effect while ensuring stability)                      |
| Lighting Configuration     | LED base illumination (single-color warm/cool light optional), RGB iridescent (dynamic effects for art collections, optional)  |
| Scratch Protection         | Inner flocking (optional, protects collections from scratches, suitable for jewelry/shoes)                                     |

### FAQs (Focused on Selling Points)

#### 2. Can floating bases support large collections?

Yes. We customize invisible bases based on collection weight, using thickened acrylic to support up to 50kg, keeping even large sculptures or limited-edition shoes stably floating.

#### 3. Will LED illuminated bases damage collections?

No. Low-power LED beads generate minimal heat, causing no damage to collections; stepless dimming is supported to adjust brightness for display needs.

#### 4. Does wall-mounted installation disrupt the floating effect?

No. Invisible stainless steel hanging brackets are completely hidden behind the cabinet, maintaining the "floating" visual from the front while ensuring structural stability.
