Product Description

Product Description (Short Paragraph)

Acrylic mini display cases, with ultra-small sizes (minimum 5cm) and exquisite craftsmanship, become collection finishing touches in small spaces. No longer grand display cabinets, they are "mini museums" on desktops, bookshelves, and windows – palm-sized blind boxes, earrings, stamps, and badges are clearly displayed in transparent acrylic, with dust covers protecting collections from damage, ideal for blind box enthusiasts, stamp collectors, and accessory lovers.

Product Attributes (Bullet Points)

- Core Materials: High-transparency acrylic (2mm–3mm) + magnetic dustproof cover + stackable base
- Craftsmanship: Laser precision carving, seamless splicing, magnetic sealing, scratch-resistant treatment
- Visual Effects: Miniature and exquisite, clear details, dust and moisture resistance, stackable storage
- Application Scenarios: Blind box collection, stamp display, earring/badge 陈列, desktop small item organization, window mini display
- Installation Methods: Desktop placement, wall-mounted (hanging bar combination optional), stackable (up to 10 layers)

Customization Parameters Table

Parameter	Options/Specifications
Overall Dimensions	Mini: 5cm*5cm*5cm (for blind boxes/earrings), Standard: 10cm*10cm*8cm (for stamps/badges), Large: 15cm*15cm*10cm (for small ornaments)
Acrylic Thickness	2mm (lightweight and portable), 3mm (texture support, suitable for stacking)
Dustproof Design	Magnetic dustproof cover (easy to open/close, sealed dustproof), sliding dustproof door (optional, for large sizes)
Stacking Function	Bottom groove design supports 10 layers of stacking, each layer independently displayed without obscuring collection details
Wall-Mounted Configuration	Special hanging bars (optional, mount mini cases on walls to save desktop space and create mini display walls)
Scratch Protection	Inner flocking (optional, protects stamps/badges from scratches and maintains condition)

FAQs (Focused on Selling Points)

- 1. Is the clarity of mini display cases sufficient to see blind box details?** Yes. High-transparency acrylic with 92% light transmission and no optical distortion clearly displays blind box details like paint and textures even at 5cm.
- 2. Is stacking 10 layers stable?** Yes. Precision bottom grooves ensure tight interlocking between layers, remaining stable even with 10 layers, while magnetic dust covers enhance overall structure.
- 3. Will inner flocking damage stamps for stamp display?** No. Acid-free flocking prevents corrosion or damage to stamps, secures them in place to avoid shaking and wear, suitable for long-term collection storage.
