Basic Information

- Minimum Order Quantity: 5set
- Price: Negotiable
- Packaging Details: Wooden box packaging, cardboard box packaging
- Delivery Time: 7-10 work days
- Payment Terms: L/C,D/P,T/T
- Supply Ability: 500sets/Year

Product Specification

- Material: PMMA
- Standard Size: Customizable
- Color: Customizable
- Feature: Luminous
- Service: OEM/ODM
- Application: Mall/Restaurant/Office/Home/Exhibition/Guardrail
- Highlight: **plexiglass stands, custom acrylic stand, clear display stands**

Product Description

Product Description (Short Paragraph)

Acrylic tiered display stands use multi-tiered stepped structures + high-transparency acrylic to put every blind box and figure "in the spotlight". Breaking the occlusion of flat displays, they achieve panoramic presentation with stepped drops, clearly showcasing collection details while creating a three-dimensional visual effect through layered levels, ideal for blind box enthusiasts, toy collectors, and desktop organizers.

Product Attributes (Bullet Points)

- Core Materials: High-transparency acrylic (3mm–5mm) + non-slip silicone feet + removable shelves
- Craftsmanship: Laser cutting, seamless splicing, stepped heat bending, non-slip treatment
- Visual Effects: Multi-tiered steps, panoramic unobstructed display, layered depth, dustproof and easy to clean
- Application Scenarios: Blind box display, figure showcase, desktop storage, window displays, sample 陈列
- Installation Methods: Desktop placement, display case recessed (optional), wall-mounted (hanging holes optional)

Customization Parameters Table

Parameter	Options/Specifications
Overall Dimensions	Mini: 30cm*20cm*10cm (3 tiers for blind boxes), Standard: 50cm*30cm*15cm (5 tiers for figures), Large: 80cm*40cm*20cm (7 tiers for large displays)
Acrylic Thickness	3mm (lightweight and portable), 5mm (texture support, suitable for stacking)
Tier Levels	3/5/7 tiers (more customizable), 3cm–5cm height difference per tier (ensuring no occlusion)
Shelf Configuration	Fixed shelves (stable structure), removable shelves (flexible spacing for different-sized collections)
Non-Slip Design	Bottom silicone feet (prevent sliding, protect desktops), shelf non-slip strips (optional, prevent collections from slipping)
Dustproof Function	Matching transparent dust cover (optional, overall dustproof to keep collections clean)
Wall-Mounted Configuration	Back hanging holes (optional, maintain stepped vision while saving desktop space)

FAQs (Focused on Selling Points)

1. Will upper-tier collections be unstable in tiered displays?

No. Each shelf uses thickened acrylic with edge non-slip treatment, and bottom silicone feet enhance friction, keeping even heavy figures stable.

2. Can removable shelves fit different-sized blind boxes?

Yes. Slot-designed shelves can be freely removed or adjusted to fit collections from mini blind boxes to 1/12 scale figures, making display more flexible.

3. Can they be recessed into display cases without affecting overall effects?

Yes. Customizable sizes matching display case internal dimensions ensure tiered structures clearly showcase collections while aligning with cabinet style for enhanced texture.
