Product Description

Product Description (Short Paragraph)

Acrylic multi-drawer storage boxes feature high-transparency acrylic bodies with multi-layer drawer structures, creating "visible and accessible" organized spaces for beauty and skincare products. Abandoning the clutter of traditional storage boxes, they clearly display every product with transparent materials, while drawer designs enable categorized storage, ideal for vanities, dressing tables, and bathroom cabinets, making beauty routines more efficient and enjoyable.

Product Attributes (Bullet Points)

- Core Materials: High-transparency acrylic (3mm–5mm) + drawer slides + non-slip silicone feet
- Craftsmanship: Laser cutting, seamless splicing, drawer slide embedding, non-slip treatment
- Visual Effects: Multi-layer drawers, transparent visibility, categorized storage, dustproof and easy to clean
- Application Scenarios: Vanity storage, dressing table organization, bathroom cabinet storage, desktop small item organization
- Installation Methods: Desktop placement, recessed (custom bathroom cabinets optional), wall-mounted (hanging holes optional)

Customization Parameters Table

| Parameter | Options/Specifications |
|--------------------|---|
| Overall Dimensions | Mini: 20cm*15cm*10cm (2 layers for lipsticks/earrings), Standard: 30cm*20cm*15cm (4 layers for skincare), Large: 40cm*30cm*20cm (6 layers for full beauty sets) |
| Acrylic Thickness | 3mm (lightweight and portable), 5mm (texture support, suitable for stacking) |
| Drawer Levels | 2/4/6 layers (more customizable), 3cm–5cm height difference per layer (adapt to different-sized products) |
| Drawer Design | Full-extraction (complete pull-out for easy access), semi-extraction (space-saving optional), pull handles (convenient opening/closing optional) |
| Dustproof Design | Drawer sealing (dust and moisture resistant), top dust cover (optional for overall dustproofing) |
| Non-Slip Design | Bottom silicone feet (prevent sliding, protect desktops), drawer non-slip strips (optional, prevent products from slipping) |
| Stacking Function | Bottom groove design supports 3 layers of stacking, each layer independently stored without obscuring product details |

FAQs (Focused on Selling Points)

- 1. Will drawer slides jam?** No. High-precision acrylic slides pass 10,000 pull tests for smooth, jitter-free operation, with silent design for a more pleasant experience.
- 2. Is transparent acrylic prone to scratching?** No. Surface scratch-resistant coatings (hardness $\geq 4H$) resist daily scratches without compromising transparency, maintaining clear display effects.
- 3. Can they be used in bathrooms without warping from moisture?** Yes. Waterproof acrylic material resists moisture and mildew, suitable for humid bathroom environments, while drawer sealing prevents water vapor ingress to protect products.
