Product Description

Product Case Description (Short Paragraph)

This freestanding acrylic bookshelf project, created for a contemporary art gallery, showcases JAFFA's ability to blend functional storage with sculptural design. The client wanted a statement piece that could display art books and catalogs while doubling as a sculptural element in the gallery space. We designed a freestanding, asymmetrical acrylic bookshelf crafted from 8mm frosted acrylic, with geometric open compartments that create a dynamic, layered look. The final installation became a focal point of the gallery, proving that JAFFA's custom acrylic solutions can be both functional and artistic.
