

JAFFA Custom Acrylic Figure Blind Box Display Case – Dustproof Showcase for Collectible Treasures

Our Product Introduction

for more products please visit us on custom-acrylicproducts.com

Basic Information

- Minimum Order Quantity: 5set
- Price: Negotiable
- Packaging Details: Wooden box packaging, cardboard box packaging
- Delivery Time: 7-10 work days
- Payment Terms: L/C,D/P,T/T
- Supply Ability: 500sets/Year

Product Specification

- Material: PMMA
- Standard Size: Customizable
- Color: Customizable
- Feature: Luminous
- Service: OEM/ODM
- Application: Mall/Restaurant/Office/Home/Exhibition/Guardrail
- Highlight: **figure acrylic display case, acrylic cases for action figures, acrylic display case for figures**

Product Description

Product Case Description (Short Paragraph)

Commissioned by a passionate blind box collector and social media content creator, this custom acrylic display case project perfectly embodies JAFFA's one-stop customization strength. Facing the client's needs to protect over 150 limited-edition character blind boxes, showcase them in a tiered, 360° visible way, and fit seamlessly into a modern gaming room, we designed a wall-mounted, multi-tiered acrylic display case with a dustproof sliding door and integrated warm-white LED lighting. Crafted from 8mm ultra-clear anti-scratch acrylic for the main body and 5mm frosted acrylic for the back panel, the case features adjustable stepped shelves to eliminate occlusion and highlight every blind box's details. Post-installation, the client's collection became a stunning focal point of the room, and the dustproof design eliminated daily cleaning hassle—fully verifying JAFFA's ability to balance functionality, aesthetics, and collectible protection.

Customization Parameter Table (Project & Service Specifications)

Parameter Category	Project Customization Details	JAFFA Full Service Range
Core Material	8mm ultra-clear anti-scratch acrylic (body/doors), 5mm frosted acrylic (back panel)	100+ acrylic materials (ultra-clear, frosted, colored, UV-resistant, flame-retardant; 2mm–15mm thickness options)
Overall Dimensions	180cm (W) * 35cm (D) * 120cm (H) (10-tier wall-mounted case)	Custom size: 40cm*25cm*30cm (desktop mini) to 240cm*40cm*180cm (full-wall collection cabinet); irregular/brand IP-shaped cases supported
Structure Design	Multi-tier adjustable stepped shelves, sliding dustproof door, wall-mounted hidden brackets	10+ structural templates (stepped, grid, rotating, floating, freestanding, combined open/closed)
Surface Treatment	Ultra-clear high-gloss finish, precision edge polishing, anti-scratch coating	Polishing, sandblasting, UV printing (character patterns/brand LOGO), laser engraving, frosted/mirror finish
Functional Add-Ons	Integrated warm-white LED strip lighting (dimnable), adjustable shelves, anti-slip silicone pads	RGB smart lighting, lockable doors, rotating bases, dustproof sealing strips, label card slots, anti-fall baffles
Service Cycle	Design confirmation: 3 days; Production: 9 days; Installation: 1 day	Design: 1–5 days (3D renderings included); Production: 5–18 days; Global shipping + installation guide + after-sales support

Core Selling Points & Customization Advantages (Bullet Points)

- One-Stop Collectible Solution:** End-to-end service from collection size analysis, 3D design rendering, material selection, prototyping to mass production, delivery, and installation—no third-party coordination needed.
- 100+ Material & Finish Options:** Choose from ultra-clear acrylic for unobstructed viewing, colored acrylic for brand matching, or frosted acrylic for ambient lighting effects, paired with functional coatings (anti-scratch/anti-UV) for long-term collectible protection.
- Collectible-Focused Design:** Adjustable stepped shelves eliminate occlusion for blind boxes of different heights; dustproof sealing and anti-fall baffles protect precious collections from dust, moisture, and accidental damage.
- Immersive Visual Effect:** Integrated dimmable LED lighting (warm/cool/RGB) highlights blind box details and color rendering, creating a gallery-level display effect for both daily viewing and content creation.
- Precision Craftsmanship & Durability:** CNC laser cutting (± 0.1 mm precision), seamless bonding, and reinforced brackets ensure the case withstands long-term use; load capacity of up to 8kg per shelf for heavy collectibles.

FAQs (Focused on Customization & Collectible Protection)

- Can the stepped shelves be adjusted to fit blind boxes of different heights (e.g., 10cm mini figures and 25cm large dolls)?** Yes. All shelves adopt a slot-type adjustable design with 1cm spacing increments, which can be freely adjusted according to the height of your blind boxes and figures, fully adapting to mixed collections of different sizes.
- Will the integrated LED lighting damage the blind box's paint or cause fading over time?** No. We use low-heat, low-UV LED light beads with a color rendering index (CRI) ≥ 95 . The lighting is designed to be indirect and dimmable, avoiding direct irradiation and heat accumulation, and will not cause paint fading or material aging of the blind boxes.

- 3. Can you add a lockable door and anti-fall baffles for families with pets or children?** Absolutely. We offer custom lockable sliding/hinged doors and detachable acrylic anti-fall baffles (installed on the edge of the shelf) to prevent pets from scratching or children from accidentally knocking over the collectibles, ensuring double protection.
- 4. Do you provide 3D renderings to confirm the layout before production, especially for large collections?** Yes. After you provide the quantity and size range of your blind boxes, our design team will create a detailed 3D rendering of the display case layout (including shelf spacing and lighting effects) within 1–3 days for your confirmation and revision, ensuring the final product perfectly fits your collection.
