JAFFA delivered a set of stackable acrylic cases crafted from 5mm ultra-clear acrylic, each with 4 tiers of adjustable shelves and a magnetic dust cover. FAQs (Focused on Customization & Scalability)

- 2. How many units can be safely stacked on top of each other?** The reinforced interlocking connectors and heavy-duty acrylic construction allow for safe stacking of up to 6 units high, providing ample storage for even the most rapidly growing collections.
- 3. Can the stackable cases be arranged in different configurations, like side-by-side?** Yes. The modular design is not limited to vertical stacking; units can be arranged side-by-side, in L-shapes, or in any other configuration that fits your space and display preferences.
- 4. Is the magnetic dust cover easy to open and close for frequent access to my collection?** Absolutely. The high-strength magnetic seals are strong enough to keep the cover securely in place for dust protection, but are also easy to lift with one hand for quick access to your figures.
- 5. Can I mix and match different case sizes or colors to create a custom display?** Yes. JAFFA offers full customization for each unit in your stackable set, allowing you to mix sizes, acrylic colors, and even add LED lighting to specific units for a truly personalized display.
