Product Description

(I) Product Description

The JAFFA Acrylic Multi-Layer Makeup Storage Cabinet is designed for beauty enthusiasts, makeup artists, and beauty studios. It is a desktop aesthetic item that integrates **storage, display, and dust protection**.

Crafted from **food-grade high-transparency acrylic**, the cabinet features a magnetic door design, which clearly displays your makeup collection while effectively isolating dust to keep cosmetics fresh. The golden partition structure of 6 adjustable shelves + side lipstick slots can store a full range of beauty products, including eyeshadow palettes, powders, lipsticks, and blushes, solving the problem of desktop clutter.

The fully transparent design turns every piece of makeup into desktop decor, and the rounded edge process balances safety and texture. Whether on a dressing table, vanity, or in a beauty live stream, it instantly elevates the space style, serving as a "makeup museum" for beauty lovers and an efficient storage assistant for

(II) Product Attributes

Attribute Category	Specific Parameters
Product Name	JAFFA Acrylic Multi-Layer Makeup Storage Cabinet
Core Material	Food-grade high-transparency acrylic (PMMA)
Structural Design	6 adjustable shelves + side lipstick slots + magnetic door
Capacity Reference	Holds approx. 30-40 eyeshadow/powder palettes + 12-16 lipsticks
Craft Highlights	Seamless splicing, high-definition polishing, rounded edges, magnetic door
Safety Performance	No sharp edges, impact-resistant, shatterproof
Applicable Scenarios	Dressing table storage, vanity organization, beauty studio display, live stream showcase
Service Life	10-15 years for indoor use, resistant to yellowing and fogging
Cleaning Method	Wipe with clean water and a soft cloth; minor scratches repairable by polishing

(III)FAQ

Is the magnetic door of this storage cabinet easy to fall off? How is the dust-proof effect?

Answer: No. We use high-strength magnetic strips for smooth opening/closing and secure closure. When closed, the cabinet forms an airtight space, effectively isolating dust and hair to keep cosmetics clean, especially ideal for long-term display of makeup collections.

Are the shelves adjustable? Can they accommodate large eyeshadow palettes?

Answer: Yes. The shelves feature a slot-in design for free height adjustment, accommodating large eyeshadow palettes/powders up to 5cm thick. You can flexibly adjust shelf spacing to maximize space utilization based on makeup sizes.

Can the magnetic door be removed for open storage during customization?

Answer: Yes. Full-structure customization is supported. You can remove the magnetic door for open display, or add drawers/dividers to precisely match your storage habits and usage scenarios.

Is the acrylic surface prone to scratching? What should I pay attention to in daily use?

Answer: The acrylic surface has certain scratch resistance and is not easily scratched in daily use. Avoid wiping with hard cloths/steel wool and contact with corrosive substances like strong acids/alkalis. Minor scratches can be repaired with polish.

How long is the customization cycle? Is expedited service supported?

Answer: Regular customization (standard size, regular structure): 7-10 working days; complex customization (special size, multi-process combination, bulk orders): 10-18 working days. Expedited orders are supported, with the fastest delivery in 5 working days, subject to an additional expedited fee.

Are samples provided for bulk customization? Is the sample fee refundable?

Answer: Customized samples are available. The sample fee is calculated based on process complexity (50-200 RMB/piece). If the subsequent bulk order quantity is ≥ 50 pieces, the sample fee can be fully deducted from the payment. Samples are shipped via SF Express for free to ensure quick confirmation.

How is the product packaged? Can it meet cross-border transportation needs?

Answer: Export-grade customized packaging is adopted: independent pearl cotton wrapping + thickened hard carton + corner protection reinforcement, effectively resisting extrusion and collision during transportation. For cross-border orders, fumigated pallets and shipping marks can be added, fully meeting transportation requirements under trade terms such as FOB/CFR/CIF.
