Product Case Description (Short Paragraph)

This custom acrylic photo frame project, crafted for a modern home decor brand, perfectly demonstrates JAFFA's expertise in blending minimalist design with functional display. The client needed a frame that would showcase photos from both sides while seamlessly integrating with contemporary interiors—avoiding the bulk of traditional wooden frames. We delivered a **double-sided frame** crafted from 8mm ultra-clear acrylic, with stainless steel corner screws and a metal stand for tabletop display. The transparent acrylic appears almost invisible, while the double-sided design allows for two photos to be displayed simultaneously—transforming a simple frame into a minimalist accent that elevates any tabletop or shelf.

Core Selling Points & Customization Advantages (Bullet Points)

- **One-Stop Bespoke Service:** JAFFA manages the entire process from initial design concept, 3D renderings, material selection, to manufacturing, delivery, and hardware, ensuring a seamless luxury experience.
- **100+ Material & Finish Combinations:** Choose from ultra-clear, frosted, or colored acrylic, paired with customizable metal hardware finishes to match any interior aesthetic (minimalist, modern, organic, boutique).
- **Double-Sided Display:** The transparent acrylic allows for two photos to be displayed simultaneously, maximizing the frame's functionality while keeping the design clean and uncluttered.
- **Durable & Easy to Clean:** Industrial-grade acrylic is non-porous, scratch-resistant, and easy to wipe clean, making it ideal for daily use in high-traffic home areas.
- **Minimalist Integration:** The transparent acrylic appears almost invisible against any surface, creating a clean, unobtrusive look that keeps the focus on the photos themselves.

FAQs (Focused on Customization & Home Use)

2. Can JAFFA provide 3D design renderings to visualize the final frame with my photos?

Yes. Our design team will create photorealistic 3D renderings based on your size, material, and photo dimensions within 1–2 days, allowing you to refine the design before production.

3. Is the ultra-clear acrylic resistant to scratches and fading from light exposure?

Yes. We use a premium scratch-resistant and UV-stabilized coating on all acrylic surfaces, ensuring the frame maintains its clarity and finish even with regular light exposure and handling.

4. Can the frame be customized for wall mounting instead of tabletop display?

Absolutely. We support custom wall-mounting hardware options (adhesive strips, expansion screws) to replace the tabletop stand, making the frame versatile for both tabletop and wall display.

5. How do I start a custom acrylic photo frame project with JAFFA?

Simply click the "Inquiry" button and share your photo size, material preferences, and intended use. Our team of design specialists will respond within 24 hours to start your bespoke project.
